... The Facts ... And Not Just The Truth ... Is Out There ...

Our website address is **www.ufor.asn.au**

June Public Meeting

The main focus of the June Public Meeting held on 06 June was on the recent trip to the township of BARRABA (north of Tamworth) by the committee members of UFO Research NSW.

Upon the invitation by the local residents UFO enthusiast, several of our committee members visited Barraba between 22 & 25 May 2009.

It has been many years since we lasted visited Barraba, and it was a great opportunity to meet up with some news faces as well as old ones.

During our stay there, Rex GILROY made a presentation on the ORBS phenomenon and one of his recent sky watch trip; while yours truly made a presentation on the 21 Dec 2012 scenario. Some of our members and the locals partake a meditation session, and an enjoyable sky watch was had by all on our last evening there.

A 3.5 hour DVD, compiled by Hugh Mulgrew, of this trip can be obtained through Hugh. If you are interested in obtaining this DVD please contact Hugh.

The next social meeting at the Catholic Club will be held on Saturday 04 July 2009.

The next public meeting at the Masonic Club will be held on Saturday 01 August 2009.

Our guest speaker for the August Public Meeting will be presenting a talk on the Crop Circles / Formation phenomenon.

Dates Of 2009 Public & Social Meetings

Public Meetings – Masonic Club, 169 Castlereagh Street, Sydney - 1pm to 5pm

07 February (AGM) 4 April 6 June 1 August 3 October

Social Meetings – Catholic Club, 199 Castlereagh Street, Sydney - 5pm onwards

7 March 2 May 4 July 5 September 7 November

Christmas Party – Saturday 05 December 2009 – Venue to be advised

These dates may be subjected to change. Please visit our website or future edition of the newsletter close to these dates for confirmation.

A Reminder to Everyone at the Public Meeting

This is a reminder to everyone – members and visitors - present at our public meeting/s that there shall be *no photography or recording of any kind* without first obtain permission from our president Ms Wendy BURNHAM or from the guest speaker/s.

The following link was forwarded by Ms Mary RODWELL of ACERN.

This video is simply amazing made by Jake Gould son of Neil Gould. It is simple but clear. It is Exopolitics!

The following link to an article from the "Northern Territory News" was forwarded by our media liaison Mr Doug MOFFETT

Hi All
Seems like the NT is still the number one tourist spot for ET's
Regards
Doug

MORE from DOUG MOFFETT

1 Morning show 4/6 11 am approx

Hi all

I will be on the morning show chan 7 approx 11am tomorrow, discussing new you tube footage of astronauts home vids of UFO's. There will be a Peter Bowditch from the skeptics on also, so should be a bumpy ride.

Doug

2 Response to article "Watch this space" May 09

Hi All

Have been in contact with Greg Callaghan, he is too busy to talk today, so I've sent these points for him to ponder. Will let you know further correspondence.

Doug

Hi Greg

After talking with you this Morning, I realised next Monday is a public holiday, so I'll send some thoughts. I would still like to chat sometime, to make sure you are clear from my perspective.

Firstly, let me explain the position I take on the subject of ET visitation. I believe there is a mystery. Nobody who has looked at the best data on this subject, without prejudice, can come to any other conclusion. A mystery requires a working hypothesis. The "Cometa Report", published July 1999 arrived to this conclusion:
"In its conclusion, COMETA claims that the physical reality of UFOs, under control of intelligent beings, is "quasi-certain." Only one hypothesis takes into account the available data: the hypothesis of extraterrestrial visitors. This hypothesis is of course unproven, but has far-reaching consequences. The goals of these alleged visitors remain unknown but must be the subject of speculations and prospective scenarios."

This report was tabled before the French government and the committee was not made up of "UFO nuts" as you can see below:

"The report is prefaced by General Bernard Norlain of the Air Force, former Director of IHEDN, and it begins with a preamble by André Lebeau, former President of the National Center for Space Studies (Centre National D'études Spatiales), or CNES, the French equivalent of NASA. The group itself, collective author of the report, is an association of experts, many of whom are or have been auditors of IHEDN, and it is presided over by General Denis Letty of the Air Force, former auditor (FA) of IHEDN.

Its name "COMETA" stands for "Committee for in-depth studies." A non-exhaustive list of members is given at the beginning which is quite impressive.

It includes:

- General Bruno Lemoine, of the Air Force (FA of IHEDN)
- Admiral Marc Merlo, (FA of IHEDN)
- Michel Algrin, Doctor in Political Sciences, attorney at law (FA of IHEDN)
- General Pierre Bescond, engineer for armaments (FA of IHEDN)
- Denis Blancher, Chief National Police superintendent at the Ministry of the Interior
- Christian Marchal, chief engineer of the national Corps des Mines and Research Director at the National Office of Aeronautical Research (ONERA)
- General Alain Orszag, Ph.D. in physics, armaments engineer

The committee also expresses its gratitude to outside contributors including Jean-Jacques Vélasco, head of SEPRA at CNES, François Louange, President of Fleximage, specialist in photo analysis, and General Joseph Domange, of the Air Force, general delegate of the Association of Auditors at IHEDN."

I am of the same opinion. There is a mystery and that the ET hypothesis is the best fit, given our current understanding of the available data.

It is generally accepted, that we are unlikely to be the only advanced technological civilisation in the Universe. The sticking point appears to be the traversing of the immense distances involved, within a practical time frame. Let us look therefore, at some universally accepted mainstream data. Assuming the universe began with the "Big Bang" 13.73 million years ago, certain facts are known. The Universe may have had the same starting point but did not cool from gaseous to solid matter at the same rate. In fact, approx 70% of the Universe cooled into solid matter before our Solar System did. We are, in comparison, a very new suburb. Research from the Uni of NSW by Prof Charly Lineweaver suggests that the age of other "Goldilocks Suns" that may support Earth like planets, is on average 1.8 Billion years older that our Sun. Is is therefore not logical to assume that other technological civilisations elsewhere in the Universe, are likely to be many thousands of years in advance of our own planet.

Let us now view this information from an historical viewpoint. Look at the technology surrounding you, that you use every day, one hundred years ago, all of it was impossible. The laws of physics have not changed in one hundred years, only our understanding of these laws. If we are dealing with technological civilisations many thousands of years in advance of our own, as is likely, then our inability to understand the "How" is historical fact.

I have a simple formula: time relative to distance = relative technology. When giving presentations to View clubs and alike, I offer this question to elaborate. Can you go to Rome for holidays and return to Australia in seven days? The answer of course is yes, using the technology of 2009. Now, let me ask the same question, using the technology of 1909, the answer of course is no. Once again I ask the same question but this time I supply no relative technology, the answer now is unknown. We are in this same situation of not knowing the relative technology we are dealing with. The answer to the probability of ET visitation is unknown, not a negative nor a positive.

It is frustrating for all concerned to have a possibility without probability but alas that is where we all stand, until further data regarding levels of technology throughout the Universe is known. It is like one having a lottery ticket, but having no idea as the whether 100,000 tickets have been sold or just 10. One knows they have a possibility but the probability is impossible to determine without more data being available.

As Mr Bhathal said:

"It is risky to judge everything by our own technology,"

And as Arthur C Clarke once wrote:

"Any sufficiently advanced technology is indistinguishable from magic"

Would love to talk further on this issue, I will send a link to the "Cometa Report" also.

Food for thought.

Doug Moffett

Report of a Strange Creature - 1975

The following is an experience sent to us by a member of the public. The writer wishes to remain anonymous and certain details below are therefore deleted.

Hi, I've recently become interested in the UFO activities that are generating more coverage just recently and my coming into a new field of work has brought me renewed interest into to workings of UFO's and how they fly. As a result, some memories have flooded back of my encounter with a creature I'll never forget, even though I tried too. This occurred some months after some UFO Crop Circles where found in the wheat belt near town and lights in formation in the sky were often seen. I must say I did not believe in such stuff until I saw this thing.

I have been subject to a sighting face to face of a creature back in 1975 in March or April in a western town of (deleted). It was about 9:15 PM and I was heading back to my room behind my fathers shop after having dinner at their house in (deleted) Street. I came up to the (deleted) Road where the (deleted) was on the corner with it's steps to front door right on the boundary of council footpath and the side yard that had tall whispy trees in those Cement Circles jutted down the side yard on the corner under the Street Light positioned there.

As I came to the School fencing just past the front door, I noticed movement to my left and stopped and turned to see a creature that had "Green Tree Frog Skin" but stood erect like a humanoid, had a skeletal structure like a human but a head of what I can only describe as a Staffordshire bull terrier with very small black eyes, a slit for where the mouth should be and no ears that I could see. I looked and could not see a zipper flap as I imagined it in some sort of a green suit but it looked like skin from a tree frog to me. When I first saw it, it was crouched down with its head up against the brick wall as if to listen inside the (deleted). It noticed me and stood up, about 5 foot tall as I was 6 foot then. We looked at each other for what seemed like 5 minutes or so, (which turned out to be something like 1 & 1/2hours as it was near 11 pm when I got back to my room. It had 3 stumpy fingers and 3 chicken type toes on each foot but was funny shaped, like a reptile.

The thing then walked into the bush closest to us both, about 6 foot away and disappeared into it. I was surprised at this as I could see right through this bush and it did not go through it, just into it and then vanished.

Some weeks after that, I had some very realistic dreams that were like I was awake, but could not open my eyes. As if some force was on me to keep them closed no matter how much I wanted to open them. (Deleted) … so please understand I'd like this whole thing to be confidential as most people think we are kooks or crazy when discussing these things. I know what I felt and did not have a drinking or drug influence then either so hallucination is not an answer. I also had some marks on my arms that won't heal and still to this day they are still there like indentations in my skin.

I have only recently had flashes of what I can only describe as being probed and prodded by something back 34 yrs ago. Also, ever since then, I've had extra sensory abilities now and then which defies logic. I knew of the Asteroid a few yrs ago that nearly hit earth two weeks before it was mentioned by anyone on the news or elsewhere. I pick up things from people and have had the ability to see aura's since seeing this thing. I think I need to be hypnotised to recount the actual and factual account of what happened that night to explain the missing time and other things that I may have been subjected to.

'European Exopolitics Summit' - Barcelona, Spain
25th & 26th of July, 2009

The European Exopolitics Summit promises to launch in Europe a powerful new way of understanding data concerning UFOs and extraterrestrial life. Public policy issues will feature high on the agenda and mark a radical departure from more traditional UFO conferences. The European Exopolitics Summit will be held in Barcelona Spain on 25th & 26th of July, 2009. It features leading witnesses and experts of the extraterrestrial phenomenon, and the new field of exopolitics. The event is a milestone in Spain and will set a precedent in Europe which has long been at the leading edge of the UFO phenomenon due to the Cold War confrontation between the nuclear superpowers.

The conference features Command Sgt Major Bob Dean (ret.) who worked at NATO headquarters from 1963-1967 and witnessed a Cosmic Top Secret document on the threat posed by UFOs. Dean's testimony reveals how Cold War tensions were of great interest to UFOs, and how allied powers were aware of different extraterrestrial civilizations. Nick Pope worked for three years as the head of the UFO desk for the United Kingdom. He discusses the latest developments in the ongoing staged release of UK government UFO files. Dr Brian O'Leary, a former astronaut for NASA's aborted Mars Program, will discuss emergent new energy technologies and how these related to the extraterrestrial phenomenon. Stephen Bassett will discuss his lobbying efforts on behalf of UFO/ET disclosure including his historic Million Fax on Washington which begins its second phase on June 1. Dr Steven Greer will discuss his extraterrestrial disclosure efforts and experiences with leading government and military authorities on the issue.

Other speakers include Alfred Webre, Paola Harris and the author, who will discuss the new field of exopolitics and how it marks a new disclipinary approach to UFO data. Finally, the organizers of national exopolitics organizations in Europe will be speaking in a panel and will reveal the implications of the expanding international exopolitics movement.

For more information, please visit the event's web - www.exopoliticseurope.com

Upcoming Events In 2009

The Centre for Galactic Diplomacy James Gilliland will be coming to Australia to speak at a conference in South Australia

1. On the week-end of the 19th & 20th September.
2. This is the link to the group who will be hosting it.
3. http://www.centreforgalacticdiplomacy.com/

2012 – The WAR for SOULS

Story follows an academic researcher who opens a portal into a parallel universe and makes contact with his double in order to stop an apocalypse foreseen by the ancient Mayans.

Premiere 12 November 2009 starring John CUSACK & Woody HARRELSON

UFO CONFERENCE – HONG KONG 2009

We have previously stated the Hong Kong UFO conference featuring Ms Mary RODWELL as one of the speakers will take place in November 2009. However, to date we have not received any further information regarding this. Will keep you posted once further information is obtained.

Presentation from Members

Do any of our members have a story to tell? Do you have an experience you want to share with everyone? Do you have a discovery that will expand our knowledge? Would you like to share your story / experience / discovery in an upcoming public meeting? If yes, please let me know and you can take center stage in one of the upcoming public meetings.

Extra (- terrestrial) Things

If you have something to share with our members, such as a book or a DVD you like to recommend, a website to visit, or if you see/ hear an interesting story / article. Please contact me (William JOHNSON) by email me JEDIWSJ@HOTMAIL.COM and it will be placed in the next issue of the newsletter.

Check out the archive of the UFO Research (NSW) web site at: http://www.archive.org/web/web.php Just insert our web site address in the search field.
