October Public Meeting

Our last public meeting for this year at the Masonic Club will be held on Saturday 03 October 2009 from 1pm onwards.

Our guest speaker for the October Public Meeting is Mr Ellis Taylor. The title of the presentation is "*Dogged Days – The strange life and times of a child from Eternity. Paranormal Experiences with Extraterrestrials, Humans, Beings from other worlds and dimensions*."

Ellis has his own website www.ellisctaylor.com and his book will be available for purchase on the day of the meeting.

Join meeting with Blue Mountains UFO Research Club

All members of UFO RESEARCH (NSW) INC are invited to participate in a join meeting with Rex & Heather Gilroy at the Blue Mountains on Saturday 21 November 2009 commencing at 2pm. Weather permitting the meeting will include a sky watch in the evening.

The meeting will take place at the Gilroy residence at 12 Kamillaroi Rd, Katoomba.

All who wish to attend please remember to bring a plate of food for afternoon tea.

2009 Christmas Party

This year's Christmas Party will be held from 12 noon on Saturday 05 December 2009. Details of venue will be advised as soon as possible.

A Reminder to Everyone at the Public Meeting

This is a reminder to everyone – members and visitors - present at our public meeting/s that there shall be *no photography or recording of any kind* without first obtain permission from our president Ms Wendy BURNHAM or from the guest speaker/s.

* Recommended read – **COEVOLUTION** by Alec NEWALD

* Russian Navy UFO Records Say Aliens Love Oceans

The Russian navy has declassified its records of encounters with unidentified objects technologically surpassing anything humanity ever built, reports Svobodnaya Pressa news website. The records dating back to soviet times were compiled by a special navy group collecting reports of unexplained incidents delivered by submarines and military ships. The group was headed by deputy Navy commander Admiral Nikolay Smirnov, and the documents reveal numerous cases of possible UFO encounters, the website says. Vladimir Azhazha, former navy officer and a famous Russian UFO researcher, says the materials are of great value.

"Fifty percent of UFO encounters are connected with oceans. Fifteen more – with lakes. So UFOs tend to stick to the water," he said. On one occasion a nuclear submarine, which was on a combat mission in the Pacific Ocean, detected six unknown objects. After the crew failed to leave behind their pursuers by maneuvering, the captain ordered to surface. The objects followed suit, took to the air, and flew away.

Many mysterious events happened in the region of Bermuda Triangle, recalls retired submarine commander Rear Admiral Yury Beketov. Instruments malfunctioned with no apparent reason or detected strong interference. The former navy officer says this could be deliberate disruption by UFOs.

"On several occasions the instruments gave reading of material objects moving at incredible speed. Calculations showed speeds of about 230 knots, of 400 kph. Speeding so fast is a challenge even on the surface. But water resistance is much higher. It was like the objects defied the laws of physics. There's only one explanation: the creatures who built them far surpass us in development," Beketov said.

Navy intelligence veteran, Captain 1st rank Igor Barklay comments:
"Ocean UFOs often show up wherever our or NATO's fleets concentrate. Near Bahamas, Bermudas, Puerto Rico. They are most often seen in the deepest part of the Atlantic Ocean, in the southern part of the Bermuda Triangle, and also in the Caribbean Sea."

Another place where people often report UFO encounters is Russia's Lake Baikal, the deepest fresh water body in the world. Fishermen tell of powerful lights coming from the deep and objects flying up from the water.

In one case in 1982 a group of military divers training at Baikal spotted a group of humanoid creatures dressed in silvery suits. The encounter happened at a depth of 50 meters, and the divers tried to catch the strangers. Three of the seven men died, while four others were severely injured.

"I think about underwater bases and say: why not? Nothing should be discarded," says Vladimir Azhazha. *"Skepticism is the easiest way: believe nothing, do nothing. People rarely visit great depths. So it's very important to analyze what they encounter there."*

* Public Sightings Report

- McGrath's Hill 4-Sept 2009

Just thought someone might be interested in a sighting my wife and I had on Tuesday night at 7.30pm at McGrath's Hill.

We observed a triangular object hovering approx 10 - 15m high. It had a solid white light on the tip of each corner and a flashing red light on 1 side. We were able to drive very close to it (almost directly underneath), it made very little noise and started slowly heading North West (towards Windsor) as we got close. We followed it as it built up speed up to about 100kph and watched as it crossed over the Windsor bypass road and dropped out of site in the distance.

My first reaction was that I was viewing some sort of fantastic new technology being tested from the Richmond RAAF base. The way the lights were laid out reminded me very much of a plane, mounted on each extreme for safety. The shape was very flat though, it didn't look like much room if it were manned. I have no explanation for the nature of it's movements, the way it hovered almost silently and then moved away.

2 weeks earlier we were driving through the same area at night and my wife commented on seeing lights in the sky not moving that she never remembered seeing before. I assumed they were on top of some sort of tower but she insisted they appeared to be floating. The next time we went past in the daytime we checked for but couldn't find any tower they could have been coming from. When she saw the more recent lights she said "look there are those lights again but they are in another place, they are definitely floating". When we saw the opportunity for a closer look we took it.

Q: Is it possible for both you and your wife to do a simple sketch of this object and scan then send it to us as an email attachment?

A: We don't have a scanner, but there wouldn't be much to draw anyway. I could only make out the outline, there wasn't much light. I can just say that from underneath it was an equilateral triangle and from the side it looked to be quite flat, not totally flat but streamline.

Q: You say you believe it was hovering about 10-15M above the ground, how close to you think you got to it?

A: The same, 10-15m. We stopped the car very close to being directly underneath. It was hovering completely motionless until we got close and it started moving very slowly and passed over us.

Q: How large do you think it was (on the sketch estimate the dimensions)?

A: Each side of the triangle could have been 3-6m. My first impression was closer to 3m.

Q: You describe it having a white light at each point of the triangle, how was the red light manifest? Was it underneath in the centre for example?

A: I can only say that I could clearly see the 3 white lights but not directly see the red light. Just the glow of a flashing light. It was probably mounted on top somewhere.

Q: It is getting quite dark at 7:30pm these days - given the conditions and time what colour would you say the object was?

A: No idea except to say it wasn't white or any other light or bright colour. It could have been any other colour and it would have been impossible to tell.

Q: We know that there are UAVs (Unmanned Aerial Vehicles) in use by the military and security establishments, these are by their nature small and relatively quiet. Would this object fit this description?

A: Yes, that was and is my assumption, but I still draw a complete blank as to how something could move like that. It hovered completely stationary right until we got close to it although it didn't seem to have any concern of being seen. I watched as it flew along side the overpass then crossed over the overpass and dropped below the level of the road and sped off. It's light would have been in plain view of several other vehicles. It made almost no noise except for a slight humming. There was no downward pressure of air and no sound of engines as it gained momentum. It didn't accelerate rapidly at all, it drifted over us very slowly maybe less than 5kph and it would have taken maybe 15 sec for it to reach 80-100kph.

I think i'll make sure I've got a video camera next time I go past there at night.

Regards
DP.

- I recently spotted a silver ball UFO hovering over Tasman pde, Fairfield heights. It was probably only a metre across with a small black dot underneath. It was probably 35 metres in the air. I've seen plenty of helium balloons and hot air balloons. This was in the daylight, the object remained perfectly still on a breezy day. My wife was driving the car and we drove right under it. I viewed it for about 8 seconds. It was unlike anything I've seen before.

- Saw three sightings 10 yrs ago over my house. All in the space of about 2 weeks. One in particular was a saucer shaped silver metallic craft that seemed like it came from a 50's sci-fi movie. At about 4pm I saw what I can only describe as a zero degree entry into the earths atmosphere, trailing a plume of fire behind, quite a sight. Then it hovered for a while and then slowly headed out towards the Blue Mountains.

- DRIVING OUT OF BONNYRIGG MY SON NOTICED WHAT HE CALLED A THING IN THE SKY SO WE I LOOKED AND SAID OH YES THE CLOUDS LOOK REALLY FLUFFY TODAY AND HE SAID NO THAT THING IT'S JUST SITTING THERE, SO WE ALL LOOKED AROUD TRYING TO SEE WHAT HE WAS LOOKING AT WHEN WE STOPPED THE CAR HE POINTED AT IT. IT WAS???? WELL NOT A PLANE BECAUSE IT WAS JUST STILL AND DIDN'T LOOK LIKE ONE AT ALL, IT WAS DARK SILVER/GREY AND KINDA OVAL, WE DROVE DOWN THEN TO THE PETROL STATION ON ELIZABETH DRIVE IN LIVERPOOL TO FILL UP AND I STEPPED OUT OF THE UTE AND LOOKED FOR IT AGAIN AND YES IT WAS, SO WE DECIDED TO DRIVE BACK HOME 4 MIN AWAY AND GET THE BINOCULARS BY THE TIME WE GOT HOME FOUND THE BIN/LARS WE LOST THE OBJECT? WE DROVE AROUND A BIT TO TRY AND FIND IT TO GET A PIC BUT COULDN'T FIND IT??? SO I HAVE NO IDEA WHAT IT WAS SO IT WAS AN UFO. THAT WAS ON THE 23 OF AUGUST 2009 ABOVE LIVERPOOL/BONNYRIGG AREA AT 2-30PM ON A SUNNY DAY FEW CLOUDS AROUND. CLOUDS WERE MOVING AS NORMAL AND THIS THING WAS NOT?

Upcoming Events In 2009

** 2012 – The WAR for SOULS*

Story follows an academic researcher who opens a portal into a parallel universe and makes contact with his double in order to stop an apocalypse foreseen by the ancient Mayans. Premiere 12 November 2009 starring John CUSACK & Woody HARRELSON

Presentation from Members

Do you have a story to tell? Do you have an experience you want to share with everyone? Do you have a discovery that will expand our knowledge?

Would you like to share your story / experience / discovery in an upcoming public meeting? If yes, please let me know and you can take center stage in one of the upcoming public meetings.

Extra (- terrestrial) Things

- If you have something to share with our members, such as a book or a DVD you like to recommend, a website to visit, or if you see/ hear an interesting story / article. Please contact me (William JOHNSON) by email me JEDIWSJ@HOTMAIL.COM and it will be placed in the next issue of the newsletter.

*** Guiding Light Around Corners With New Metamaterial Device**
http://www.sciencedaily.com/releases/2009/07/090731121002.htm
Scientists have built a device from metamaterials and transformational optics that delivers a complex set of instructions capable of guiding light with unprecedented accuracy. The discovery expands on earlier "cloaking" efforts to guide light around objects or space.
