

UFO RESEARCH (NSW) INC.

NEWSLETTER - VOL. 1 - 2008

... The Facts ... Not Truth ... Is Out There ...

2007 has come and gone. It has been a very busy and interesting year indeed. 2008 is looking very promising to be just as busy and interesting.

Annual General Meeting

The Annual General Meeting for 'UFO Research (NSW) Incorporated' will be held on Saturday 09 February at the first floor conference room of the Masonic Club at 169 Castlereagh Street, Sydney.

All members are encouraged to attend.

Please note that the 2008 Annual General Meeting and the February public meeting were previously advertised to take place on Saturday 02 February. This has now been re-scheduled for Saturday 09 February at 1pm.

The guest speaker will be Mr Robb Tilley of the Australian Institute of Para Psychology, and his subject is the parapsychology of UFO encounters.

Meeting fee for members is \$10.00

Meeting fee for non-members is \$15.00

Membership Renewal for 2008

This is a reminder to all members that membership renewal is now due. A membership renewal form is attached to this newsletter. Please ensure the completed renewal form and payment be forwarded as soon as possible.

Brief summary on what had happened during 2007

In April, UFO Research (NSW) has been incorporated to become 'UFO RESEARCH (NSW) INCORPORATED'. A constitution for this organisation has been implemented to ensure integrity and professionalism in the ways we function as an organisation.

In June the '2nd International Scientific & Metaphysical Symposium' were held at Lidcombe, NSW with Australian and overseas speakers.

In September, the 'Future Perspectives' conference were held at Rotorua, New Zealand.

In December, the 'Australian Cosmic Connection – UFO Metaphysical Conference' was held at Adelaide, South Australia.

All of these conferences were well attended by our members, and all agreed it was well worth attending.

In 07 July (07/07/07), Ms Sonia Kruger of the Channel Seven (7) Television Network together with a camera crew met with our members at the Masonic Club in Castlereagh Street, Sydney filming a segment for the 'TODAY TONIGHT' program with 'UFO RESEARCH (NSW) INCORPORATED'.

The segment was aired some weeks later. Although the end product may not matched some of our expectations; many do agreed that the segment was quite good as we have experienced worse treatment in the past by the media; nevertheless we all had fun during the filming. As for yours truly, the experience was certainly an eye opener as this was my first exposure with the media.

In November, Ms Dolores Cannon of the USA came to Australia (Perth and Sydney) for a series of lectures and work shops. Yours truly attended the lecture held at the YWCA in Wentworth Street, Sydney on 07 November and it was most illuminating. The lecture spans 2 hours but it could have gone on forever. Despite the lecture lasting 2 hours, much of the matters she had covered were extremely brief as she had a lot to say, and therefore she was not able to explain everything. I have included a brief summary of some of the issues she had covered on the evening, please read on in the upcoming pages of this newsletter.

In December, the 'Penrith Regional Gallery & The Lewers Bequest' at Rivers Rd, Emu Plains has opened an exhibition titled 'The Visitors'. Again, several of our members including yours truly attended the opening. The exhibition opens until mid February.

The exhibition includes a variety of paintings by artists on their impressions / interpretation on the UFO phenomenon, a Roswell time-line, sculptures of an alien and an alien head, a map of Australia with flags marking the locations where UFOs have been sighted. The Penrith Choir made an appearance and sung several UFO themed songs, and to cap off the opening there was an appearance of several characters in costumes from the 'STAR WARS' movies where guests were able to take photos standing alongside them.

For the public meetings held throughout 2007, we have had a number of guest speakers making presentation covering a range of topics.

* Members of the 'UFO & Paranormal Research Society of Australia' presented a video of their latest research into the paranormal.

* Mr Barry Taylor talked about his recent discoveries and the DVDs which he had made. He also showed us a particularly very interesting photo of a creature like object perched on top of a road bridge. Barry named this creature the 'MOTHMAN'.

* Mr Bill Chalker showing a video of his trip to Thailand where mysterious balls of light can be seen flying out of the depths of a river and rocketed into the sky, and how thousands of locals including Bill have witnessed the phenomenon that occurred once a year. He also talked about a village where they are experiencing an unusual amount of UFO activities.

* Mr Dudley Robb made a presentation on his trips to Roswell, New Mexico and of his discoveries, marking the 60th anniversary of the Roswell crash.

* Yours truly made a presentation describing my trip to Roswell, New Mexico in 2002; visiting the site where one of the alleged space craft have crashed landed, and the testimony of Mr James Ragsdale on his claims he saw the alleged crashed space craft.

* Mr Jason Cowland provided a slide show and speaks of his trip to Roswell, New Mexico in July 2007 where he attended the 4 day convention marking the 60th anniversary of the Roswell crash.

* Ms Graciella Flain presented a talk about recent UFO activities in South America.

* At our last meeting of the year in October, due to the unavailability of our guest speaker, a DVD titled 'FASTWALKERS' was shown. This DVD chronicles the viewpoints in the UFO subject of a number of experienced investigators, researchers, ex-military personnel.

* Honorary member and founder of the Blue Mountains UFO Research, Mr Rex Gilroy, provided regular reports and updates on the UFO activities in the Blue Mountains region.

'UFO RESEARCH (NSW) INCORPORATED' wishes to thank everyone who participated in our public meetings for their valuable contribution. A word of thanks shall also go to Ms Pamela Boyne for her contributions at the public meetings throughout 2007.

The bi-monthly social meetings held at the Catholic Club continued to be well attended by members throughout 2007. 2008 should not be any different, and as usual all is welcome.

Call for participants - Meditation Group

Can't wait for the day when the ETs finally show themselves to the world?

From 2008 and beyond, 'UFO RESEARCH (NSW) INCORPORATED' will initiate attempts to make contact with the ETs. As a first step to achieve this, we are to form a meditation group.

Date/s and place are yet to be determined; nevertheless, anyone interested in joining, please contact me (William Johnson) on 0412183046 or email me to JEDIWSJ@HOTMAIL.COM

DATES OF 2008 PUBLIC & SOCIAL MEETINGS

Public Meetings – Masonic Club, 169 Castlereagh Street, Sydney - 1pm to 5pm

09 February 05 April 07 June 02 August 04 October

Social Meetings – Catholic Club, 199 Castlereagh Street, Sydney - 5pm onwards

01 March 03 May 05 July 06 September 01 November

These dates are correct to this moment but may be subjected to change. It is recommended that you check our website prior to these dates to confirm at www.ufo.asn.au

UPCOMING EVENTS IN 2008

**NEXT DIMENSION 2008 – 15 March 2008, Blackheath, NSW
Paranormal, Ufology, Mediumship & Alternative Healing Conference**

Organised by the 'UFO & Paranormal Research Society of Australia'

For more information regarding this conference, please visit their website at www.ufosociety.com.au

Summary of lecture presented by Ms Dolores Cannon - 07 November 2007

The Earth we currently lived in is just one dimension of many thousands of dimensions / alternate universe.

This dimension is measured by the frequency which this Earth emits. Other dimensions have different sets of frequency.

It is by 'tuning in' this frequency where Extraterrestrials are able to travel to Earth without travelling millions of light years, nor require a source of power unknown to Earth.

What humans on Earth called 'GOD', ETs calls it 'The Source'. A Light

Yes, even the ETs do not have all the answers.

The classic grey ETs are not made of flesh and bone but robotic. It is the smaller replica of the real ETs.

The real ETs despised this Earth's frequency. They cannot bear to be here, but because of their duties, they are here despite their dislike for this Earth. This is the reason for the smaller replicas, so the replicas can do their job for them without them being so close to this Earth.

ETs are here to observe us and see what we do and how we do things.

Dolores's experience in hypnotherapy showed people who had near death experience claiming this life on Earth is just a game.

ETs are peaceful. Dolores has yet to come upon information to suggest otherwise.

Reincarnation - Every soul must experience life differently each time. You are a man, you are a woman, you are white, you are coloured, you are rich and you are poor. You will also have experienced different beliefs, religion & custom.

Previous life does not exclude other things found on Earth. You are animal, vegetable and mineral. Dolores came upon one man who claimed he was a rock when Earth was just volcanoes and poison gas. Another said he was simply a light.

Even inanimate objects have their individual life force. As it is set at different frequencies, humans therefore cannot detect it.

Dolores suggests homosexuality is the result of a human soul previous lives have been continuously either a male or a female. Thus the soul is confused when in this life the soul is the opposite sex.

What is happening to the humans on Earth is unprecedented throughout the universe. Never before has any life forms in the universe had experienced what we are going through right now.

Nevertheless, what we do, here and now, will reverberate throughout the universe. If we destroy ourselves with war and hatred, not only it affects this Earth but the whole universe will feel the repercussion. ETs have tolerated what humans done on and to the Earth before, but no longer.

There is a universal law. ETs cannot directly interfere with humans. This is why they have never revealed themselves openly to the people on Earth.

Another applied law is when you reincarnate you will forget your previous life. If you can remember them, then there is a risk that you would not want to reincarnate. There is a chance you may not want to live this life simply because you remembered how much you dislike your previous life. Yet, this law do not apply to ETs.

ETs do not want to see humans destroying each together. ETs wanted to help, but they cannot help us directly.

As they cannot interfere from without, they therefore interfere from within. Thus, we have the three waves.

ETs throughout the universe were called to volunteer to come to Earth and take on the form of a human. These ETs/Humans will be called upon to save this Earth.

These ETs/Humans do not have a past life on Earth.

Wave 1 – Age in the 50s and 60s (After WWII - Atomic Bomb)

These are the people who will pave the way for waves 2 & 3, to set the scene. These people will have the hardest time living on Earth. Most do not like it here. Some would even consider suicide.

Wave 2 – Age in the 30s, early 40s

These are the people who continue the work of people from wave 1. These people finds life a little easier but still do not like to be here. Most would always want to be somewhere else, and that they do not belong to wherever they are.

Wave 3 – Star Child / Indigo Child (Year 1990 onwards)

These are the people eventually will save this world.

Not everyone will be saved.

The world as we know it today cannot be saved. It is too late. People cannot change. There is no need to try to change them.

The ascension will take place in the year 2012, as according to the Mayans.

We need to get rid of our fears.

We need to get rid of our Karma. People reincarnate life after life because they could not let go of their previous life.

Many who claimed to have seen the light, or the Source; all agreed it is the most beautiful place.

RECENT UFO / SIGHTING REPORTS

Here are some of the sightings reports sent to our website. (Name/s of person/s are deleted for privacy reasons)

Received 10/01/2008

It was 1974 at Lovely Banks a NW suburb of Geelong Vic, was with a friend at the time in a car parked over looking the North of Geelong. Time was just after the Sun had set, the sky still had a reddish glow as it was summer. We saw in the sky looking west an orange object moving from north to south about a km away at a moderate speed its shape was like looking at a disc from the side that had a curved top and bottom. My female friend became uneasy and wanted to leave, I had a pair of binoculars in the car 10X50 when I focused in on the object I could distantly make out that there was also a dome on top, making it look like a classic flying saucer. Three seconds latter it did a sharp right hand turn and flew off in a steep climb at very high speed and vanished. At this point I to was unsettled and we quickly drove home.

Received 14/12/2007

Finally I have found a site that deals with others who have seen UFOs. The one that I want to report happened about January 2001. I was at Greens Beach, Tasmania with myself, my partner and 2 other friends. As we were leaving the beach to go home I noticed a big ball of blue light travelling across from east to west of the sky at a low altitude. The strangest thing was that my partner and 2 friends did not see this sighting that did happen. The thing that still gets me the most is that I never heard anything in the media to what I saw. How can you miss a big ball of blue light that looked like a ball of fire kinda like the pictures you see of a comet? I was even waiting for a big boom, expecting it to collide to Earth. But of course there wasn't, but still no one to my knowledge seen it.

Received 04/12/2007

Hi people, I am not a nutter, just someone who has seen, numerous times, and I have a need to share. I never could understand all the various discussions as to whether aliens existed or not. One chap on the radio not too long ago said it was his opinion that "they" would find us before we found them. Well I am here to tell you that they have found us already. For years I have watched them in the sky. The one sure way to tell a space craft from anything else is to see the way it changes direction. They do not curve, they simply change direction. They also seem to work on some form of grid, as in a sky map. Sorry not too good at explaining, but I watched two ships once both going in the same direction, but not in line, not one behind the other. But when they both reached the same point in the sky, one behind the other, they both changed direction at the same point, so placing the rear craft now directly behind, and in line with the other. There is a place in the Territory where every night I would watch one of these craft doing a square in the sky. He arrives at the top right hand corner of the square, and leaves from the same position, at an incredible speed I might add. For all I know it is still doing it. Now how come no one else sees it? It is plain enough to see, and nothing we have is capable of that sort of manoeuvring. I know that does not prove that they know we are here, but I have seen on within about 200 yards. My young son, over 20 years ago now, spotted its reflection in the dam. Don't know how long it had been hovering above us and don't know how come I didn't see it before.

It was not directly over us, but a little way the other side of the dam. The late afternoon sun reflected off it, and it was quite large. Even after we saw it, it remained motionless for a little while, then slowly went around us, quite close, but above tree height. It never did speed up, as though it just didn't care. It went over a neighbouring property toward where there is another big dam, out of sight over the ridge. I have thought about that over the years, wondering why it was there, to watch us? To view my house? Or was it there because of the dam? I guess I shall never know. And before you ask, no it was not a balloon or a helicopter! It made no sound at all that I could detect, and I have good hearing. Anyway I just had to share that with someone. Actually in a way I found it, or find it now, a little scary. At the time I believe my chin was on my chest for quite some time! But it is later when you get to think about it. My wife is an avid science fiction reader, or at least she used to be. I make a point of not mentioning these craft when she is around. It actually does scare her to think that they are in fact real, and yet there is no way we can tell if they are friendly, or even begin to imagine what they may look like. I hope I see one that close again, I am not sure what I will do, but I feel a need to make contact with them somehow. Well I had better close. My regards to you all

EXTRA(terrestrial) THINGS

- Yours truly spotted a vehicle with the registration beginning with **UFO ---**, and it came with a tyre cover with this symbol . Unfortunately I could not signal the driver to stop, and therefore I could not find out what his/her interest is in UFOs.

- Here is a website you may like to check it out.

www.crystalinks.com

This site contains articles covering a wide range of issues and is updated regularly.

- Mr Barry Taylor has published a new book titled '**UFO DOWN UNDER**'. We are in the process of obtaining copies of this book which will then be made available for purchase for interested members. Cost to be advised.

- If you have something to share with our members, such as a book or a DVD you like to recommend, a website to visit, or if you see/ hear an interesting story / article. Please contact me (William Johnson) on 0412183046 or email me to JEDIWSJ@HOTMAIL.COM and it will be placed in the next issue of the newsletter.

Compiled by William Johnson (Committee member) – 20 January 2008
And May The Force Be With You ... Always

UFO RESEARCH (NSW) INC.

NEWSLETTER - VOL. 3 - 2008

... The Facts ... And Not Just The Truth ... Is Out There ...

Our website address is www.ufor.asn.au

Upcoming June Public Meeting

Masonic Club – 1st Floor Conference Room - Saturday 07 June 2008 - 1pm

Our speaker will be our member Ms Flor AMANOWICZ. The topic will be Flor's presentation during last year's NEXUS Conference.

April Public Meeting

Firstly, other matters ...

We had a great turnout in attendance for the second meeting of the year. We have a total of 39 attendees, 16 of which are members of the public.

The meeting commenced with the showing of a recent television interview of our media liaison officer Mr Doug MOFFETT with Mr Larry EMDUR & Ms Kylie GILLIES of **'THE MORNING SHOW'** of the Seven 7 Network that took place on Tuesday 11 March 2008.

Well done Doug, you have done a fantastic job.

(Doug has been invited for an interview with Ms Sonia KRUGER on her radio show on MIX FM schedule to take place sometime in July. Hopefully by the next newsletter I will be able to provide you with more details so we may all tune in.)

Guest Speakers ...

Our first guest speakers are Ms Lorraine CILIA and Mr Dominic McNAMARA of **'The UFO & PARANORMAL RESEARCH SOCIETY of AUSTRALIA'**.

The subject of the presentation is the group's field trips into the Blue Mountains over the past several years.

One particular sighting caught on film showed a white pulsating object hovering over the regions of the Blue Mountains. The incredible thing is that the camera picked up the object, yet it was not seen by the naked eye at first. The object was also moving about at various speeds and just suddenly stopped and hovers. Slow motion of the footage clearly indicates the object is not any type of the conventional aircraft.

They were also able to film on a number of occasions, small planes and helicopters flying low over the Blue Mountains National Park.

The presentation concluded by Q&A from the audience.

Our next guest speaker is Mr Bill CHALKER

Bill relates his investigation into a possible landing of an Extraterrestrial Craft.

He is responding to a request from member Mr John SMYTH in relation to a sighting / landing at Coogee, suburb of Sydney's east.

The event took place on 29 February 2008 at approx 4am. The friend of John witnessed the landing of a craft at a T-intersection in a suburban street in Coogee.

It was a spherical shaped craft with pedestal-like landing gear. The witness also claims to have seen a small man-like creature inside the craft looking out through the craft's view port situated at the top of the globe.

The contact experience lasted approx 5 minutes.

When the object began to rise, the witness claimed a truck was heading towards his direction, but the truck did not slow down at any time. It appeared the driver of truck may not have seen the craft.

After the event, John visited the location with the witness and John collected samples of scorched tree branch of a tree situated quite near where the craft had landed. Also, there was a burnt mark left on the road exactly where the craft had landed.

Bill interviewed the witness on 19 March and he too visited the location of the landing. He then showed some of the photos of the street, the burned bitumen, the burned tree branch.

An interesting side note regarding the burned bitumen is that the council had repaired the damage within days.

Editor's note - The council actually had an interest in repairing the damaged road? Why? The photo showed the section of the road with the burned marking, however, the marking did not seem to be in need of URGENT repair. Considering the number of damaged roads throughout many of the Sydney streets and many of them are not fixed nor were there any urgency to fix them. Did an element of our government knew about this landing and are covering up the evidence?

Finally, we have Ms Suzanne HANSEN of 'UFOCUS NZ' from New Zealand and Ms Mary RODWELL of 'ACERN – Australian Close Encounter Resource Network' from Perth W.A. in a joint presentation.

The presentation relates to Suzanne's experiences with the Extraterrestrials throughout her life, from a young age to the present and of the not-too-distant future; while Mary relates her work through 'ACERN' and her involvement in an upcoming Queensland based television show chronicling stories of experiencers, to be titled 'Hot Zone'.

As a majority of the contents of the presentation by Suzanne and Mary are due to appear in an upcoming book and the television show. Therefore with respect to Suzanne and Mary the contents of their presentation will not appear in this newsletter.

For his efforts in setting up the equipments in order for our guest speakers to make their presentation during this meeting, a word of gratitude goes to our member Mr Hugh MULGREW.

A Reminder to Everyone at the Public Meeting

This is a reminder to everyone – members and visitors - present at our public meeting/s that there shall be no photography or recording of any kind without first obtain permission from our president Ms Wendy BURNHAM or from the guest speaker/s.

Triangle Formation over Western Australia

The following was sent to our website back in August 2007.

I found something funny at Google earth, and because the military is not willing to tell me, what kind of plane they are testing, they gave me your web link.

I hope that the US and your nation still not removed it. You sure all have Google Earth, if not download it and go to the coordinates

30°30'26.16 S 115°22'40.14 East about 200 Miles north of Perth.

I made a screenshot yesterday. But when Google Earth didn't change the maps, you can see it still on your own pc.

Maybe Google and NASA made a hoax, I do not know, but when I look at this, it seems like a triangle aircraft and a quite big one.

Well NASA made the picture, I guess they are serious. So which nation built this? Looks like a military craft.

Due to the photo in question is copyrighted, it cannot be reproduced here.

You may like to check this out by going into GOOGLE EARTH with the co-ordinates provided.

Singer Robbie Williams on UFO

UK singer Robbie WILLIAMS recently made public of his interest in UFOs, aliens, and all things to do with the paranormal.

He claimed he had seen UFOs on three occasions, and he has been quoted in saying he wants to quit singing to become a full time UFOLOGIST.

These claims were made to the UK's SUN Newspaper.

Williams says he spends most his time conducting his own research into ghosts and aliens and attends UFO conferences when he is not playing his music.

Dates Of 2008 Public & Social Meetings

Public Meetings – Masonic Club, 169 Castlereagh Street, Sydney - 1pm to 5pm

09 February 05 April 07 June 02 August 04 October

Social Meetings – Catholic Club, 199 Castlereagh Street, Sydney - 5pm onwards

01 March 03 May 05 July 06 September 01 November

2008 Christmas Party – Saturday 29 November 2008 - Venue to be advised
(THIS IS STRICTLY FOR MEMBERS ONLY)

These dates are correct to this moment but may be subjected to change. It is recommended that you check our website at www.ufor.asn.au prior to these dates to confirm.

Upcoming Events In 2008

** DOLORES CANNON*

Dolores is schedule to return to Australia later this year where she will present her '**Advanced Training Course in Past Life Regression Hypnotherapy**' in Perth and New Zealand in November / December 2008.

Now available on CD: Dolores CANNON's **Between Death and Life** and **The Convoluted Universe**

Please email Ms Patricia HAMILTON at Patricia@consciousliving.net.au for more details or to order the CDs.

** NEXUS CONFERENCE – 04 / 05 / 06 OCTOBER 2008*

Novotel Twin Waters Resort, Sunshine Coast, Queensland

Special display and presentation of the **MITCHELL-HEDGES CRYSTAL SKULL**

To book, please call (07) 5442 9280 or visit www.nexusmagazine.com

Cost: 04 October 2008 only - \$135.00

05 October 2008 only - \$135.00

06 October 2008 only - \$110.00

04 & 05 October 2008 - \$250.00

04, 05 & 06 October 2008 - \$330.00

Cost includes GST, morning & afternoon tea each day, but do not include accommodation

*** *THE MITCHELL-HEDGES CRYSTAL SKULL***

In addition to being displayed at the NEXUS Conference in October 2008, there will be a tour around Australia's east coast between October and November.

For Sydney, this will take place between 04 November and 11 November. Details and venue to be announced

Private Sessions (max. 2 people) - \$45.00pp for 30 mins / \$80.00pp for 60 mins
Group Sessions (max. 9 people) - \$35pp for 30 mins / \$60pp for 60 mins

The Skull will also be displayed during the '**MIND BODY SPIRIT FESTIVAL**' in Sydney between 06 & 09 November at the NEXUS booth, plus talks, workshops, etc.

*** *UFO CONFERENCE – HONG KONG 2009***

Our good friend Ms Mary RODWELL has been invited as a guest speaker in an UFO Conference due to be held in November 2009 in Hong Kong. Details of the conference are to be confirmed.

Presentation from Members

Do any of our members have a story to tell? Do you have an experience you want to share with everyone? Do you have a discovery that will expand our knowledge?

Would you like to share your story / experience / discovery in an upcoming public meeting?

If yes, please let me know and you can take center stage in one of the upcoming public meetings.

Recent UFO / Sightings Reports

Here are the recent sightings reports sent to our website. (Name/s of person/s are deleted for privacy reasons)

Received 05/05/2008

Saturday 3rd may 2008, witness a large bright orange ball of light travel from the south for about 30seconds, then headed west sharply, gaining altitude and disappearing out of sight. Full duration of event, 90seconds thought it was a large star or plane at first, but was clearly neither. It was easily at least 3 or 4 times bigger than the brightest star in the sky, and equally brighter and there was an absence of flashing lights as with most aircraft and as the light changed direction, the intensity of the light didn't diminish as you expect headlights to. Witnessed this from my balcony 100mtr from Cardiff Train Station, NSW

Received 14/04/2008

My husband and I have just witnessed something we have never seen before. About 7.45pm my husband was walking our baby to sleep in our backyard when he called out to come outside. I looked up to the sky and saw 2 bright orange objects travelling across the sky, in unison it seemed. Then to the left, we saw another one - however this one seemed at lot lower and closer, with a huge fireball burning. It seemed like it was going down in the sky not far from us. There was no noise with any of them...was very quiet. We couldn't work out what they were. The other 2 travelled across the sky and seemed to stop in the distance and hover around the same spot for about 2 minutes. We lost sight of one of them, but we witnessed the bright orange glow from the other one extinguished and then we lost sight of it. We have never seen anything like it before and really have no idea what was going on. We are interested to find out if anyone else saw what we did or anything similar. We live in East Maitland NSW. Please let us know if anyone else has reported seeing something strange tonight, Friday 11th April 2008.

The following is the response from our member Joann Kanda in regards to this sighting,

I spoke with the witness. The lighted floated garbage bags explained this one. Witness agreed that this was the likely cause. School holidays!! She was a little disappointed but pleased to solve the puzzle. No previous sightings by either witness. I think we can cross this one off unless something else proves otherwise?

Received 12/04/2008

At about 18:45 11/04/2008 I was standing on my front veranda at East Maitland NSW and saw 2 bright orange lights which appeared to be about 30-40 degrees from my horizontal, travelling in a north-westerly direction and about the size of a thumbnail on an outstretched arm. At first I thought they were F-18's from Williamtown RAAF, as they often conduct exercises in the Hunter Valley. I was waiting for the sound of the jets and called my two sons aged 8 and 10 to come and have a look as we like jets. The lights behaved erratically, slowing down, speeding up and they did not stay the same distance away from each other, the distance varied but not by a great deal. At one point the light which was trailing "caught up" to the front one and then appeared to slow down again. The three of us watched the lights until the roof of the veranda blocked our view. We then went through the house and watched from the back yard. The lights continued along the roughly same trajectory and became smaller, went further away. They did not however "disappear over the horizon" as we have seen planes do. The lights got to a point where the perception of them moving ceased and they just kept getting smaller and smaller as if they were getting further and further away in a straight line away from us. They eventually became too small to see. At one point I said, "They're not planes. I don't know what they are." The children and I discussed what we had seen and all agreed on what we had seen as per the above. At about 19:15 I called the Police and asked if they had received any reports of strange lights. They replied in the negative. When my wife got home at about 20:30 the children

said "We saw UFO's". My wife was shocked, as other people to whom she had spoken earlier that evening also reported seeing the same thing and also stating that what they saw was not explainable in terms of aeroplanes or any other known phenomenon. My wife called the police and again asked if there had been any similar reports. The Sargent mentioned RAAF exercises. Later the police called back and said that they had contacted the RAAF who confirmed that they had NOT been conducting any exercises at that time. I know what I saw and I know that they were not planes or helicopters.

Received 12/04/2008

Friday night 11/04/08 at about 6:30 in East Maitland I saw 2 orange lights coming out of the east and flew directly over the village of east Maitland. Another guy across the street saw them as well. There was no noise. They were not flashing, and they were flying side by side. However you could notice they were independent. I was not like to care headlights, but rather like to motorcycles side by side. I watched them as they headed west. I drove home. My wife and I stepped out onto our back deck which faces north-west and you could still see them. They were smaller and now further apart. They were still orange. Then one left the other one and started to head down while the other one headed up, then we could not see them any more. The whole sighting lasted about 12 minutes. They did not look like airplane or chopper lights. I am excited about this as it has never happened to me before and I am 62 years old. A reply would be appreciated.

Received 11/04/2008

I wondered if you might have had any reports from Wednesday 09 April 08 at around 2115. I'm a GA Licensed Pilot and was sitting on my back veranda in Tomakin (nr Batemans Bay) Wednesday evening when I noticed one very bright strobe like flash NNE of Tomakin quite low in the sky, just above the tree line. I thought it might have been the Regional Express SAAB coming in to Moruya from Sydney (late). I continued watching for about another 90 seconds, and saw another single flash, but this time at probably 55 – 60 degrees above the Horizon on pretty much the same track. I pinched myself. It definitely wasn't an aircraft. There were no (red or green) Nav lights and no continuously rotating beacon flashing at regular intervals, just one single flash. Given the distance it had travelled in under 90 seconds (from low in the horizon to 55-60 degrees above) it must have been moving very fast indeed. It wasn't a satellite. I've seen them before. And it wasn't an aircraft, certainly not a commercial or private aircraft anyway. To my absolute amazement, some 60 -90 seconds later it flashed again, but this time on a different track. It had moved some 15-20 degrees to the West, just one single very bright strobe like flash, and then nothing more. If you've heard anything similar, I'd like to hear back from you if possible.

Received 01/04/2008

I saw something very strange over The Entrance last night 31st. Watching from the other side of Tuggerah Lake I could see clearly what was happening. There was a stationary aircraft emitting multicoloured lights appeared to be red, green, white and perhaps blue occasionally. The thing that was even stranger was the occasional blinking of what appeared to be other stationary aircraft. If you imagine a clock face, this multicoloured aircraft being in the middle, the other aircraft seemed to be in a circle around it almost at each number around the clock, i.e. there were approximately 12 other aircrafts. The one at approximately 10 o'clock was visible all the time, the others would blink every now and

then with no real pattern. This was at approximately 9:30pm - 10:30pm on March 31st 2008. I fell asleep watching them and when I awoke at approximately 2:30am I couldn't see them in the sky anymore. If they were stars they would have moved across the sky to the west however, they were simply not there any more. I'm no stranger to UFO sightings, back in 1990 I saw a UFO over Berkeley Vale which was very low to the ground, it was emitting a red and green light and looked as though it had a football shape. It hovered without a sound, I passed directly below it, it was almost like an air balloon but being 8:30pm in winter I could only see the outline. It moved between Berkeley Vale and Wyong in a westerly direction anyway and back again for hours before disappearing. I had the same tense feeling last night as I did back then. Something tells me that what I saw last night was similar to what I saw many years ago.

Received 31/03/2008

Last Night, 30 March 2008 my husband and I were walking at San Remo, NSW on the lake about 6.30pm when we noticed what looked like a comet in the western sky - travelling north. It was moving slow and had a tail, another fisherman said he thought it was a plane letting out fuel to start with but we watched it for half hour and it was a long way away and was too slow for a plane. It eventually disappeared over the horizon. Did anybody else see this?

Received 17/03/2008

I used to live on a farm way out in the bush in the Mid-North Coast area of NSW, and my husband and I have both seen a few unusual lights exhibiting strange behaviour from time to time. I'm prepared to accept that these may have been weather balloons as I have had one of those crashed into our dam. But about ten years ago I was driving home, travelling NW along a quiet, open, straight stretch of road with no street lights or other vehicles, at about 11pm having just finished work. I was concentrating on the road ahead as there were often wallabies and kangaroos on the side of the road) when in my peripheral vision I saw something in my rear view mirror. When I looked, I saw 7 orange triangles in the sky, in a neat formation of 3 above 4. They were very bright but with clearly defined edges - the light did not seem to 'bleed' into the surrounding darkness, making me think that these were 7 individual objects as opposed to lights or windows on a single object. This stayed behind me for about a minute until I reached the end of the straight where the road curved to the right, and entered a heavily forested area with trees hanging so far over the road that they blocked the sky almost completely from view. I was quite afraid, and glad to lose sight of the object/s. I never saw it again. I'm not sure if the orange colour was from the object/s or because there was a lot of smoke and dust in the sky from recent bush fires; they could have in fact been any shade from white to yellow or possibly pale grey, as I recall the moon being quite orange at the time. Other than my husband I have told very few people about this as I didn't want to be ridiculed. It's a shame there are freaks and fakers out there whose lies and fantasies make people believe there have been no genuine sightings. I don't know what I saw but I know it wasn't a plane or helicopter.

Here is one sighting report sent to us last year

Received 03 August 2007

I live in southeast Denver by Cherry Creek Reservoir and have seen UFO's many times since about 1984. The first one I saw was different than the rest. I was about 14 or 15 and I was walking to the store with a girl (I won't use her last name because she really freaked out about this). It was early afternoon and we both looked up and saw like 3 Bright lights just sitting there, they were huge, they looked like little Suns but you could look at them. Then there would be 5 or 7, back to 3 and sometimes just 1 for like a second (always odd), and then they just disappeared. It lasted a good minute or longer. There were cars stopping on Yosemite and everything. I remember I saw the same exact thing on that show Sightings years later. I tried to get in touch with the girl to see if she remembered it. She would not talk to me about it!! The best I got was through her sister who said she DID remember it but did NOT want to talk about it.

The second time, I was about 23 and it was definitely the strangest thing that has ever happened to me In My Entire Life!! I rode my mountain bike down to the soccer fields close to my house to fly my kite. As soon as my kite was in the air, the goal post started MOVING!! The top part was bending back and forth and making a Loud Humming sound, like a 'Wah Wah' from the metal Bending. It went for at least 2 minutes, then stopped (it took almost a minute to slow to a stop). Then it DID IT AGAIN!! The second time seemed like the (square) rail bent even farther like it was about to break but it didn't last as long. I remember I tied my kite to my bike and I grabbed on to it to see if I could slow it, No Way! I went to the other goal post to see if like the wind could be doing it and it was doing nothing. It freaked me out! I thought I was going Crazy!! I could hear the golfers on Kennedy golf course yelling "fore" and I wanted to yell at them, but I was sure they'd think I was crazy. A couple of minutes later, I looked up at my kite and saw a little green ball flying through the air!!! It was kind of a dull green but if you looked hard at it, it was kind of detailed, hard to explain. I yelled at the golfers anyway, no response of course. It would move in a straight line, at like super speeds (like nothing I've ever seen) both directions, and then real slow, (that's when I actually felt scared). I must have looked at it for at least two minutes. The more I stared at it, the more I Felt that I was being watched. It is very hard to explain that feeling. Then it started flying in 1 direction (S.) and went fast into the tiniest cloud (the only cloud that day) and never came out the other side. I reeled my kite in (fast) and left. This is weird also. You could see the soccer fields from my townhouse but you have to ride 5 blocks North, 3 blocks East and then about 5 blocks South again to get to them because of a big field. I could do it in a matter of minutes. But when I got 2 blocks from home, there were a bunch of fire trucks and the field in front of my house was on fire. The weird thing was it looked like it had been on fire for a while, and I had Not Seen It from the soccer fields!!! This freaks me out to this day! I got home and told everyone I knew. That story takes a while to tell to people, but I told a lot of people, and I told them " I don't Care if you believe it or not". I don't know how many did, but I swear on my life It Happened!! I almost want to get hypnotized or something.

Then, once in the mid to late 90's and once in the early 2000's I saw something similar, in a way, (it was night). The first time I was with my friend. We were driving south on Boston St., (which is between the soccer fields and my house), and we saw a bright green light just shoot toward the ground, slow down for a split second, then disappear in the neighbourhood across the freeway, (W. of C.C Reservoir). We both freaked out and totally agreed it was a UFO. Then, believe it or not, my friend and I were driving down the same street, about the same time of night, the same time of year, (late summer), and we saw the

Same Exact Thing. This time I think it moved around more than the first time I saw it. This is all in the Same Area.

I've never written to any authorities, or called Sightings or anything like that in the past. This is why I am now. You can tell by now that I'm not good with dates so I'm gonna say this happened about 2 to 3 weeks ago. I was sitting in my room, it was about 2 or 3 am, I had insomnia and had had a few beers, (just being honest). I heard this real deep hum like a helicopter time a thousand. It got real loud and actually vibrated me and like everything, then stopped. It only lasted a few seconds but I remember saying out loud, "What the Hell was that!!" I went to see if anyone else had heard it, (or felt it), but everyone was asleep. I looked outside and saw nothing. I admit I remember being freaked out about it. I'm not even sure if I told anyone about it. Then like a week later (about a week ago today) I was painting the dining room and I went between the townhouses to clean my brushes, (right by my room), and I saw this big circle of dead grass!!! I've shown my neighbours, my mom, my friends, my kids and I took pictures of it, It's Still There Right Now.!!! This is all the absolute truth and has happened to me. I will attest to this in court or wherever the hell anybody wants me too. This recent thing with the circle has made me curious to see if anybody else has seen similar things. I am gonna send this to any U.F.O web sites I can find, or anybody that wants to hear it. You are the first. I would like any professional opinions, any feedback, ANYTHING about this.

Extra (- terrestrial) Things

- **'The UFO Experience Reconsidered: Science & Speculation'** written by Mr Rob MASON & published by SCHOONER MOON BOOKS in December 2007, 168 pages. This book attempts to reduce UFOs to science, speculations with scientific basis, and with multiple perspectives. Link <http://stores.lulu.com/smb>

- We have received an email letter of introduction from **'The Upper Murray Caravan & Tourist Park'** located at Tintalra, North East of Victoria offering an ideal location for camping, and most important of all, night sky watching. For more details you may contact Ms Ailsa GATT at ailsagatt@hotmail.com

- If you have something to share with our members, such as a book or a DVD you like to recommend, a website to visit, or if you see/ hear an interesting story / article. Please contact me (William JOHNSON) on 0412183046 or email me to JEDIWSJ@HOTMAIL.COM and it will be placed in the next issue of the newsletter.

UFO RESEARCH (NSW) INC.

NEWSLETTER - VOL. 4 - 2008

... The Facts ... And Not Just The Truth ... Is Out There ...

Our website address is www.ufor.asn.au

Upcoming October Public Meeting

Masonic Club – 1st Floor Conference Room - Saturday 04 October 2008 - 1pm

For our final meeting for 2008, we will be showing the following DVDs. These DVDs were donated to UFO Research (NSW) Inc. by our member Mr Mick FARRELL.

- * Capturing the Light – The Dorothy IZATT Phenomenon
- * 2008 – 17th International UFO Congress at Nevada, USA with Jaime Maussan & Santiago Yturria

I can assure you that you do not want to miss out on seeing these DVDs.

August Public Meeting

A video was shown of an interview by David LETTERMAN of '*THE LATE SHOW WITH DAVID LETTERMAN*' on 11 June 2008 regarding a photo of an alleged Extraterrestrial. The photo shows what appeared to be an Extraterrestrial standing outside the house looking into the person's bedroom.

We then followed by the showing of a segment of the TEN Network Sydney program '*9AM WITH DAVID & KIM*' on 30 July 2008 of an interview with George SIMPSON of '*AUFORN*' Victoria regarding recent comments made by Apollo 14 Astronaut Edgar MITCHELL and the NASA cover-up of the existence of Extraterrestrials.

You can also check the following web site address for more details,
www.alienvideo.net/0807/edgar-mitchell-nasa-astronaut.php

Amongst the audience for this meeting, we have the presence of Mr Jamie LEONARDER, an independent film maker, and former co-host of 'The Movie Show' previously seen on the SBS network. Jamie and his friend Darren attended our meeting to film the guest speakers' presentation as part of a documentary they are current in the process of making. Jamie hopes this documentary will actually becoming a full length feature film.

Guest Speakers ...

Our first speaker for this meeting is our member John SMYTH.

John presented a comprehensive history of Extraterrestrial sightings and contact experiences from Australia and from around the world.

President Wendy BURNHAM presented an UFO sighting experienced by her brother that took place in a wheat station in the NSW country township of Moree in the late 1960s.

Our second speaker is Judy, a friend of our president Wendy. Judy presented to us her history and experiences of UFO sightings in the Northern Territories and the Moree area during the late 1960s and early 1970s.

The sightings experiences presented here clearly indicate the NSW countryside is indeed a hot spot for UFO sightings.

June Public Meeting

Once again we have an excellent turnout for this meeting despite the meeting was held over the holiday long weekend.

A video was shown of a news bulletin on the TENS Morning News Sydney of Thursday 15 May 2008 regarding the release of classified UFO documents of the 1970s and the 1980s by the UK government. For more details regarding this item please read on.

Guest Speaker ...

Our speaker for this meeting is our member Ms Flor AMANOWICZ.

The topic of the presentation is her appearance as a guest speaker at the NEXUS Conference last year. A DVD of her presentation at the conference was shown, followed by questions from the audience.

The presentation details Flor's experiences and discoveries from her recent trips to Peru. She also described the circumstances that led to her travels to Peru.

A Reminder to Everyone at the Public Meeting

This is a reminder to everyone – members and visitors - present at our public meeting/s that there shall be no photography or recording of any kind without first obtain permission from our president Ms Wendy BURNHAM or from the guest speaker/s.

John Lear - Project Camelot

The following web link is the transcript of a 4 hour interview by Project Camelot with John Lear that took place at Nevada, USA in April 2008.

http://projectcamelot.org/john_lear_2008_transcript_1.html

The interview covers a wide range of issues and it is highly recommended for everyone to check this out.

Doug Moffett and interviews with MIX FM

On Monday 23 June 2008, Doug Moffett, our media liaison has been invited by MIX FM for pre-recorded interviews to be broadcast by 97.3FM in Brisbane and Mix 101.1 in Melbourne.

The interviews were broadcasted on Tuesday 24 June 2008

'HOT ZONE' - TV Series

During the presentation by Ms Mary RODWELL at the April public meeting, Mary informed the audience that she is in the process of preparing a television program titled 'HOT ZONE'.

This is to be a 26 one-hour program chronicling evidence of UFO / Alien craft, witness testimonies, experiences, re-enactments.

This program is being realised by a company based in Queensland and Mary is the content co-ordinator.

If anyone has recent evidence of UFO footage, photos, etc and wish to participate, please discuss with our president Ms Wendy BURNHAM.

UK Government releasing classified UFO documents

The following is an extract of a bulletin on the Sydney TEN television network morning news of Thursday 15 May 2008.

The UK government via the National Archive has released hundreds of pages of classified documents regarding UFO sightings in the 1970s and the 1980s in the UK.

The released documents include sightings, apparent sightings and claimed sightings.

One such document claimed a fisherman in Aldershot was shown around an alien ship but were told to leave because he was too old.

Another claimed 3 experienced police officers witnessed a bright white light descending into a forest in Surrey after midnight on Christmas in 1985.

The reporter then interviewed Ruth, who in 1984 witnessed a bright flashing light over Stanmore, *"Looked like a bright star, changing colours, red, yellow, green, blue, balls of light shooting off the side of it and moving around in the sky."*

Nick POPE then appeared being interviewed regarding the release of the documents, and he said, *"Makes people think not all these things can be explained ... maybe there is something more to this."*

The reporter then provided a closing statement,

"The truth is out there, then again, the truth just isn't as exciting as a flying saucer."

From Sceptic to Believer?

The following is an article from the Northern Territory News dated 18th July.

A TERRITORY politician has added weight to growing claims there are UFOs flying around in Darwin's rural area.

Independent MLA Gerry Wood said he saw a strange object fly across the sky above Howard Springs early Wednesday morning.

"It was a dark grey object and it was flying parallel to the ground - it lit up white at the front for a short period, maybe one or two seconds, and then the light disappeared and the object melted with the sky," he said.

Mr Wood, a self-confessed sceptic, said the object moved across the sky at a tremendous rate, but he didn't believe it was a plane.

"There wasn't a sound, not even a whisper," he said.

"There was no trail of sparks like you see with a shooting star. It was just a white glow at the front and underneath. I know that people won't believe this because, for starters, I'm a politician ... that puts me in the category of 'what a load of crap'.

"I'm also a sceptic, but I saw this thing, clear as day."

Mr Wood's report is the second sighting of an unknown object in the skies above Darwin's rural area.

Sightings over Tenterfield

The following article comes from 'Tenterfield Star' 15 July 2008 edition.

There was something unusual in the air last month that has people struggling to explain.

Two separate sightings by Tenterfield residents, one in Tenterfield and the other travelling through St George, Queensland, both described something white and silver floating in the sky on Friday, June 13.

The first sighting was in the Queensland town at 4:30 pm. The Tenterfield local, who did not wish to be named, saw the object heading in a north-west direction whilst taking pictures of the moon.

"It made me think it was a plane at first, or a weather balloon," he said.

"But the wind was blowing south west which would cause a balloon to be blowing away.

"Showed my wife the photos. Other people may have seen it if they were looking in that general direction."

The man was staying at the Pelican Rest Tourist Park with his wife in St George. He said that the object left no vapour trail like a plane and did not make a sound. He then began to take pictures of the object in the sky that hovered for around five minutes then disappeared.

"Depending on size of it, it looked to be close to about 20,000 feet in the sky," he said.

"I turned my camera around and started taking pictures of it."

The Bureau of Meteorology observed the pictures that were taken of the object and came to the conclusion that it was not a weather balloon, according to the bureau's Queensland Regional Observations Manager Garry Sugrue.

"It is difficult to tell from the photo what it is but it wouldn't be a weather balloon released by us," Mr Sugrue said.

"The timing and the location are not consistent."

Defence Force spokesman Paul Lineham was unable to confirm if the object in the picture was a military craft.

"An F1-11 aircraft from RAAF base Amberley was undertaking routine training in the St George area at the time," Mr Lineham said.

The UFO Research Group of NSW Executive Committee member Doug Moffett inspected the images and concluded that if the Bureau of Meteorology and the Australian Defence Force could not explain it, it would be best described as a mystery. He also said that the image showed an object with a peculiar shape that did not look like a plane.

Another resident saw a similar object south of Tenterfield on the same day at 5:30 pm. The female resident, who also wished not to be named, saw something floating in the sky and was moving south towards Glen Innes.

"It was a round white thing moving in a straight line," she said.

"It then disappeared into the sky."

The female resident said that the object, like the sighting in St George, did not make a sound.

The following is the email response from the journalist sent to Doug MOFFETT on 11 July 2008.

Hi Doug,

Here is the picture. I just talked with a bloke from the BOM in Qld and he said the closest site they release the balloons from is Chaterville, but only at 9.15 am then 12 hours later. So he said it was not likely there was something in the air from the BOM at 4:30 pm.

Regards,

Samuel Groves
Journalist - Tenterfield Star

Close Encounters in the Capital

Doug MOFFETT also alerted me of the following web link of an article that appeared in 'The Canberra Times' Thursday 31 July 2008 edition.

www.canberratimes.com.au/news/local/news/general/close-encounter-in-the-capital/1231773.aspx

Upcoming Events In 2008

** DOLORES CANNON*

Dolores is schedule to return to Australia later this year where she will present her '**Advanced Training Course in Past Life Regression Hypnotherapy**' in Perth, Sydney and New Zealand in November / December 2008.

For Sydney, the dates are schedule for 21-23 November.

Now available on CD: Dolores CANNON's **Between Death and Life** and **The Convuluted Universe**

Please email Ms Patricia HAMILTON at Patricia@consciousliving.net.au for more details or to order the CDs.

** NEXUS CONFERENCE – 04 / 05 / 06 OCTOBER 2008*

Novotel Twin Waters Resort, Sunshine Coast, Queensland

Special display and presentation of the **MITCHELL-HEDGES CRYSTAL SKULL**

To book, please call (07) 5442 9280 or visit www.nexusmagazine.com

Cost: 04 October 2008 only - \$135.00
05 October 2008 only - \$135.00
06 October 2008 only - \$110.00

04 & 05 October 2008 - \$250.00

04, 05 & 06 October 2008 - \$330.00

Cost includes GST, morning & afternoon tea each day, but do not include accommodation

*** *THE MITCHELL-HEDGES CRYSTAL SKULL***

In addition to being displayed at the NEXUS Conference in October 2008, there will be a tour around Australia's east coast between October and November.

For Sydney, this will take place between 04 November and 11 November. Details and venue to be announced

Private Sessions (max. 2 people) - \$45.00pp for 30 mins / \$80.00pp for 60 mins
Group Sessions (max. 9 people) - \$35pp for 30 mins / \$60pp for 60 mins

The Skull will also be displayed during the '**MIND BODY SPIRIT FESTIVAL**' in Sydney between 06 & 09 November at the NEXUS booth, plus talks, workshops, etc.

*** *JOURNEY TO THE CENTRE OF THE EARTH***

This updated version of the Jules Verne classic starring Brendan Fraser schedule premiere in Australia on 25 September 2008. – A geologist and his son discover a message in an ancient artefact leading them into a previous unseen world.

*** *THE DAY THE EARTH STOOD STILL***

Remake of the 1951 classic starring Keanu Reeves schedule premiere in Australia on 26 December 2008.

*** *RACE TO WITCH MOUNTAIN***

Movie schedule premiere in Australia on 26 March 2009 – a Las Vegas cab driver helps 2 intergalactic alien children find their missing space ship so they can return to their home planet and convince their alien society not to invade Earth.

*** *2012 – THE WAR FOR SOULS***

Movie schedule premiere in Australia on 09 July 2009 – Story follows an academic researcher who opens a portal into a parallel universe and makes contact with his double in order to stop an apocalypse foreseen by the ancient Mayans.

*** *UFO CONFERENCE – HONG KONG 2009***

Our good friend Ms Mary RODWELL has been invited as a guest speaker in an UFO Conference due to be held in November 2009 in Hong Kong. Details of the conference are to be confirmed.

Presentation from Members

Do any of our members have a story to tell? Do you have an experience you want to share with everyone? Do you have a discovery that will expand our knowledge?

Would you like to share your story / experience / discovery in an upcoming public meeting? If yes, please let me know and you can take center stage in one of the upcoming public meetings.

Recent UFO / Sightings Reports

Here are the recent sightings reports sent to our website. (Name/s of person/s are deleted for privacy reasons)

Received 08/08/2008

In late October 1976 I was aboard HMAS Melbourne heading down the NSW coast for Sydney. I was on duty in the Operations room about 3.00 AM when we picked up a UFO contact on radar. It approached very quickly from the east until about 10 miles distant on our port side, where it remained stationary for about 40 seconds. It then left, back in the same direction it came at tremendous speed. Four of us observed it and agreed it was a true contact. We had just completed an exercise with the RAAF and USN, and no F-111 or F-14 Tomcat could approach anywhere near the speed of this object.

Received 26/07/2008

1994 approx. last sat June or first sat July. We were going to my sister's place at Campbelltown NSW, travelling from Fairfield Heights. My brother in law was turning 30 yrs old. BBQ was to start around 7.30-8pm. We got in car to leave Fairfield around 6pm, drove down Sackville St, towards Canley Vale. Sitting at red traffic lights, I say to my husband, 'are the street lights moving ahead'. Thinking that the amber coloured street lights for fog; are moving up and down approx 12 amber lights. My husband had blinker on to turn into Hamilton Rd to go to Cumberland highway, turns blinker off, we decide to go straight ahead to Canley Vale, as we realise these lights are something unusual. We stop near creek and park and watch these lights, they go from 12 to 4, then there are 12 again, they disappear. We head back to Cumberland highway, talking as we travel, about these strange lights. They looked about soccer ball size, oval shape. As we get to red traffic lights at Cabramatta rd & Cumberland highway, again we see these lights, 12 again. This intersection is very busy and we notice other people looking up at them in cars around us. Amber lights moving, there are 12, then there are 4. There are 12 again, then there are 3, they are moving sideways, up and down, we watch them as we travel towards Liverpool, going past Cabramatta golf club, they are in a line of 12 again, then there is 1, it seems slightly larger, they disappear again. Heading towards Campbelltown from Liverpool now,

we are silent, thinking about these lights. We are now near Glenfield, we see this bright amber ball in sky in front of us, we see cars near us pull over, we done the same. I say to my husband what's wrong with the radio, as it goes to static...say to my husband to drive car again as we feel scared, as the amber light is on our left, over bush, it is closer...my husband starts car after several goes. We see light go from a big ball, very close to moving away at a fast speed then it is gone. We are shaking as we travel to my sister's house. We arrive at my sister's house, everyone has eaten, my sister says we are late, it is around 9.30pm, we left at around 6pm, even stopping twice, we should have been there by 7.30pm, it normally takes around 50minutes, to get to my sisters house. We tell my sister and our friends about the strange lights, they say, have you been drinking, we say no, we have not even been to get any drink for BBQ yet, they look at us, as though we have lost the plot. We are shaking as we tell them these lights scared us. My cousin then arrives, she had not been there when we arrived, she had been sent to bottle shop, to buy some cartons of beer, as she had only had 1 glass of wine...they ask her, what took her so long? She should have been back ages ago, she also is shaking, says she was at bottle shop, when people there said look at those lights in the sky, she describes them as we already have. My cousin has been gone over an hour, the trip to pick up beer at bottle shop, should have been around 15mins. Our family & friends at BBQ still give us strange looks, at least we know that someone else seen them, and we are not going mad. We drove home that night arriving back around 12.30am, getting out of our car I say to my husband, look there is a shooting star in the sky, he turns around, but it has already gone, then I see another and another, 3 in total, my husband misses them all. He thinks I am mucking around, because of the events earlier in the night. I tell my mum about it the next day...She says she read the Sunday paper ...and that it has been reported by lots of people. Other people had seen it also ... but paper reports that it was Ingleburn Army Base; they had several weather balloons up the previous night. We don't believe they were balloons...several years later...living at Merrylands, watching TV local vision channel 43 at the time, Mum, husband and myself are watching a programme on UFO sightings in Australia, they discuss sighting around Berowra Waters & on the coast, then they speak to people who had sightings, the same night as us, they seen the lights over Woodville rd, Yennora...we are shocked as we hadn't thought about this in some time...We often tell our friends about our experience, but we always get odd looks. Did anyone else see this?

Received 13/05/2008

Driving home I saw a white streak thinking it was sun reflection as the sun was setting. I pulled over to watch as I began to see it move slowly across the sky, it looked like a white tube with a long tail. As it moved it went behind cloud and as it came out the other side it was black but still with its tail. It was travelling too slowly to be a plane. It was NOT a plane or anything I had seen before. Sighting Western Victoria

Received 28/05/2008

I am asking anyone to come forward if they have seen a UFO over the Canterbury Race Course NSW in early 1968. My family witnessed a large cigar shaped object descend through clouds over Ashfield move over the water tank at Auburn, then hover of Canterbury Race track. It stayed over it some time before making a 45 degree tilt, sliding back up through the clouds. I remember few days later some locals at Campsie were startled one morning to see a large UFO in the middle of the race track. The story did

run in the local paper. This happened in about January 1968. Are there any takers? I'd be interested to know?

Past UFO / Sightings Reports

Received 17/05/2006

Hi, my partner and I witnessed five-star like objects moving around the sky tonight while watering the garden. These appeared separately and moved in different directions at very high speed. We are in Harrington Park NSW, just wondered if anyone else has witnessed this as well?

Received 20/08/2006

Friday 18th August around 10:45pm Sydney over the Rozelle area, from my well elevated balcony in glebe I saw a UFO that was stationary for 5 or so minutes, moved horizontally slowly to one side (estimated about 1 kilometre) then back to where I first saw it. It flashed big bright colours (red, green, blue and white) in no discernable pattern. It was reminiscent of the lights for the UFO in the movie "Close Encounters of the Third Kind". Could someone tell me whether this was an advertising blimp or something? I watched it for about 10 minutes trying to identify what it could be.

Received 07/09/2006

Last Wednesday at approx 8:30pm in Green Valley which is near Cowpasture Rd, Liverpool my wife and I heard an incredibly loud sound like a jet engine starting on our roof. Unbelievably loud, it lasted approx 5-10 seconds. We have shutters so didn't look outside. My mother-in laws friends live about 1 km from us and say that as they drove home they clearly saw a UFO like object hovering around the area of our house. They had stopped the car to look at it and said that at the time the roads were very quiet. The electrics in their car turned off and so did their mobile phone. Did anyone else see or hear anything last week?

Received 02/10/2006

I live in Western Sydney. At about 7.00pm an object matching this description was seen by my partner, her cousin & a neighbour also saw a small sun like object move across the sky & hover above a nearby house before disappearing. Keen to know a possible explanation for this

Received 03/10/2006

On Saturday night 1st Oct 06, at about 11pm, my sister heard a jet engine sound for over half an hour. She went outside to observe and saw a large oval shaped object with bright red and yellow lights hover in the distance facing west then it just hovered out of sight. The very next night, my sister and mother both saw the same thing at 7pm, 2nd of October 06. They saw it hovering and moving slowly from west to south. Now this was in the Canterbury area. They were both very scared at the time, and were convinced it was a UFO, as they had never seen anything like it ever before.

UFO RESEARCH (NSW) INC.

NEWSLETTER - VOL. 5 - 2008

... The Facts ... And Not Just The Truth ... Is Out There ...

Our website address is www.ufor.asn.au

As 2008 now drawing to a close, the committee of UFO RESEARCH (NSW) INC. wish to thank all our members for your continuing support and participation throughout the year.

We would also like to thank all our speakers / presenters at our public meetings for their invaluable contribution.

We now look forward to seeing you all again for another exciting year in 2009.

In memory of Pamela Anne BOYNE

Our long time member and friend Pam Boyne sadly passed away on Thursday 21 August 2008. She is now with the LIGHT.

The news of her passing was a great shock to everyone.

Her funeral were held the following Friday 29 August at the Woronora Cemetery at Sutherland and it was well attended by many of her friends.

Whilst Pam will always be with us in spirit and in our hearts, her presence will be missed greatly.

“Each friend represents a world in us, a world possibly not born until they arrive, and it is only by this meeting that a new world is born.” – ANAIS NIN

Tribute to Pam

The following is a tribute to Pam by our president Ms Wendy Burnham during Pam's memorial service.

“

PAM WAS A WELL LOVED AND RESPECTED MEMBER OF OUR GROUP.

SHE WAS A PART OF US FOR SOME TIME AND WAS A GENTLE AND WISE PRESENCE AMONGST US, AND WILL SURELY BE MISSED. SHE HAD A REASSURING AND HELPFUL EFFECT WITH OUR GROUP.

PAM HELPED WITH OUR PUBLIC MEETINGS AND WAS AN ACTIVE SOCIAL MEMBER AS WELL. SHE PARTICIPATED AND HELPED IN RESEARCH, CONFERENCES AND AWAY TRIPS FOR OUR ORGANISATION.

MY MOST VIVID MEMORY OF PAM WAS HER WISE COMMENTS, WHEN AT TIMES WE WERE ALL RUNNING AROUND LIKE CHOOKS, AS YOU OFTEN DO WHEN ORGANISING PUBLIC EVENTS.

AS PAM LEFT US SO SUDDENLY, I FEEL SHE HAS MUCH WORK TO DO IN THE SPIRIT WORLD AND WE HOPE SHE IS AT PEACE IN HER NEW REALM.

“

I have found my OBI WAN KENOBI - William Johnson

If you are familiar with the 'STAR WARS' movies, you will know the characters 'Luke SKYWALKER' and 'Obi Wan KENOBI'.

For those who are not familiar, in brief, by fate, Luke Skywalker befriended Obi Wan Kenobi and Luke was led into a journey that changed his life forever. Obi Wan became Luke's friend and mentor, a father figure in many ways. Unfortunately their time together was short. Even after the death of Obi Wan, Obi Wan remained by Luke's side through the netherworld of the FORCE (*LIGHT*) and continues assisting Luke on his journey.

For many years, I have been pondering on when I am going to meet my Obi Wan Kenobi. When will I actually get to meet this person that will assist me through my life that leads to a journey that will change my life forever? I knew there is such a person in existence, and I must meet this person if I were to carry on my journey through this life.

Then, in November 2006 I became a member of UFO (RESEARCH) NSW. I attended the social meeting at the Catholic Club and met up with some of the members of this group who were there that day.

Although I did not know it at the time but at long last I have found my Obi Wan Kenobi. It was during this social gathering that I met Pam for the first time.

Unfortunately for me, from a certain point of view, I did not realise I have found what I have been looking for until the passing of Pam. I have much regret that I did not get the chance to tell her that she is my Obi Wan Kenobi which I have been searching for, for many years.

Prior to her passing, Pam came to me in my dreams on 3 occasions. The message from these dreams was very clear to me,

I need Pam ... I need Pam to help me

While the other characters of 'STAR WARS' such as Princess Leia, Han Solo, Chewbacca, Yoda, R2D2 and C3PO are just as important to Luke as Obi Wan. From my point of view, Obi Wan played the most important role in Luke's life over all the others. Likewise, all the members of UFO RESEARCH (NSW) INC. is family to me, and each of you are all important to me. However, Pam's influence to me over the past 2 years simply cannot be measured. Again, I regret I did not fully comprehend what she really meant to me until she is gone.

I will miss the times when Pam gave me one of her many, many, many books to read, which always ended up by enlightening me on some of the dreams I have had.

I will miss the times when Pam gave me her insights on what some of my dreams meant to her.

I will miss the times being with her during sky watches at the Blue Mountains.

I simply ... missed her presence.

Yes, Pam will always be with me, and with all of us. She may have gone from this dimension, but she will always be with us by our sides in spirit. I know that. I live by it, as this is what I tell people. Somehow ... for me in this instance ... this is not enough.

Since Pam's passing, she has again visited me when I was in a dream state. Seeing her with her always smiling face was a great comfort to me, and again she came to help me. I know having Pam visiting me in my dreams is just the beginning. I know I shall be seeing her in my dreams with many more times to come.

Pam's passing is not just a random act of nature. It is not simply just a fact of life.

So when Pam comes to you in your dreams,

PLEASE LISTEN TO WHAT SHE HAS TO SAY

October Public Meeting

For our final meeting for 2008, we present the following DVDs,

- * UFO Files from the UK
- * 2008 – 17th International UFO Congress at Nevada, USA
with Jaime Maussan & Santiago Yturria

Mr Jason Cowland will present a review of the latest publication by well known UFO researcher Stanton Friedman.

Membership Renewal for 2009

Enclosed is the membership renewal form for 2009.

To renew your membership, please complete and send the attached form along with the payment to our PO Box address, or hand in your completed form and payment to the membership secretary Anthony Clarke.

A reminder to this year's Christmas Party

Please confirm your attendance by no later than Friday 14 November.

Your confirmation is essential as we cannot accommodate anyone without it.

As you are aware, this year we have a set menu (as included for your information from the previously newsletter). Please let me know if you have any dietary requirements so we will arrange an alternative menu for you.

The restaurant – Manly Phoenix – is located right at Manly Wharf. If you arrive by taking a ferry from Circular Quay, it is next to the wharf.

A Reminder to Everyone at the Public Meeting

This is a reminder to everyone – members and visitors - present at our public meeting/s that there shall be no photography or recording of any kind without first obtain permission from our president Ms Wendy BURNHAM or from the guest speaker/s.

Upcoming Events In 2008

** DOLORES CANNON*

Dolores is schedule to return to Australia later this year where she will present her '**Advanced Training Course in Past Life Regression Hypnotherapy**' in Perth, Sydney and New Zealand in November / December 2008.

For Sydney, the dates are schedule for 21-23 November.

Now available on CD: Dolores CANNON's **Between Death and Life** and **The Convolved Universe**

Please email Ms Patricia HAMILTON at Patricia@consciousliving.net.au for more details or to order the CDs.

** THE MITCHELL-HEDGES CRYSTAL SKULL*

In addition to being displayed at the NEXUS Conference in October 2008, there will be a tour around Australia's east coast between October and November.

For Sydney, this will take place between 04 November and 11 November. Details and venue to be announced

Private Sessions (max. 2 people) - \$45.00pp for 30 mins / \$80.00pp for 60 mins
Group Sessions (max. 9 people) - \$35pp for 30 mins / \$60pp for 60 mins

The Skull will also be displayed during the '**MIND BODY SPIRIT FESTIVAL**' in Sydney between 06 & 09 November at the NEXUS booth, plus talks, workshops, etc.

* ***THE DAY THE EARTH STOOD STILL***

Remake of the 1951 classic starring Keanu Reeves schedule premiere in Australia on 26 December 2008.

* ***RACE TO WITCH MOUNTAIN***

Movie schedule premiere in Australia on 26 March 2009 – a Las Vegas cab driver helps 2 intergalactic alien children find their missing space ship so they can return to their home planet and convince their alien society not to invade Earth.

* ***2012 – THE WAR FOR SOULS***

Movie schedule premiere in Australia on 09 July 2009 – Story follows an academic researcher who opens a portal into a parallel universe and makes contact with his double in order to stop an apocalypse foreseen by the ancient Mayans.

* ***UFO CONFERENCE – HONG KONG 2009***

Our good friend Ms Mary RODWELL has been invited as a guest speaker in an UFO Conference due to be held in November 2009 in Hong Kong. Details of the conference are to be confirmed.

Presentation from Members

Do any of our members have a story to tell? Do you have an experience you want to share with everyone? Do you have a discovery that will expand our knowledge?

Would you like to share your story / experience / discovery in an upcoming public meeting? If yes, please let me know and you can take center stage in one of the upcoming public meetings.

Recent UFO / Sightings Reports

Here are the recent sightings reports sent to our website. (Name/s of person/s are deleted for privacy reasons)

Received 07/09/2008

Early this morning, around 3am, I was in a taxi travelling home from Terrigal. We were passing through Ettalong when I looked out the left window when I spotted an orange ball of light high in the sky. It appeared to be moving horizontally across the sky before it began to descend. It didn't seem to be travelling at a very high speed. As it descended it seemed to burst into a fireball and descend more rapidly until it broke into about 3 different visible pieces. My friend was sitting in the back seat with me and she asked me if it was a shooting star. I have seen many shooting stars and this wasn't one. Unfortunately as I was in the car, I wasn't able to tell if there was any noise coming from this object. I assumed that it was a meteor of some kind but after having carried out some minor investigation and having read these stories I realised that there have been many sightings of orange "orbs" around the central coast area and along the east coast of NSW ... Strange.

Extra (- terrestrial) Things

- Check out some of the latest sightings in and around Australia, go to www.auforn.com
- If you have something to share with our members, such as a book or a DVD you like to recommend, a website to visit, or if you see/ hear an interesting story / article.
