

## **SOME COMMUNICATIONS WITH AND QUOTES FROM EXTRA TERRESTRIALS**

Whilst returning from Montreal to Boston in 1963 Betty and Barney Hill were abducted at about 1.00 a.m. in New Hampshire. Under hypnosis Betty Hill recalled asking one of the ETs “What are you doing with Barney? Bring him in here where I am”. The ET replied, “No, we have equipment enough in one room only to do one person at a time. If we took you both into the same room it would take too long. Barney will be all right, they are going to take him into the next room and as soon as we get through testing both of you, you will go back to your car. You don’t have to be afraid.”

During the abduction the ET drew a map down from the wall. On the map were lines connecting dots and circles. Betty asked what they meant. The ET replied that the heavy lines were trade routes, the solid lines were places they went to occasionally and the broken lines were expeditions. Betty asked him where his home port was and he replied, “Where are you on the map?” She looked and laughed and replied, “I don’t know.” “If you don’t know where you are then, he said there isn’t any point telling you where I am from.” He then put the map back in the space in the wall.

In October 1978 Hideichi Amano drove up a mountain at 8.30 p.m. outside Sayama City with his two year old daughter. He was planning a radio conversation with his brother. Both were radio hands. On his return home a fluorescent tube in the car lit up becoming ten times brighter than normal. The light was confined to the car’s interior. Then a circular orange light from a point in the sky entered the car through the windscreen and focused on his stomach. Hideichi then sensed something metallic being pressed onto his right temple. Glancing sideways he saw a humanoid with a pipelike device in its mouth. From the tube came an incessant babble which, he said, was like a tape being played too fast.

In December 1967 US Police Officer Herb Schirmer of Nebraska saw a strange lighted object on the road ahead of him at 2.30 a.m. He flashed his high beam at it and saw a saucer shaped object. Under hypnosis he recalled that he was met in his car by beings who took him aboard a UFO. The ET’s told him that their craft operated by reversible electromagnetism and that they drew power from (earth’s) water reserves. They said that their craft had been brought down by radar and that they were undertaking a breeding analysis program. They also said that they stole electricity from overhead powerlines but in such small quantities that the electricity companies didn’t notice. They told him that they were from a neighbouring galaxy and had hidden bases on earth, one a submarine base near Florida. They communicated both vocally and telepathically.

In August 1995 staff sergeant Charles Moody of the United States Air Force had a close encounter in New Mexico. During the following two months he recalled Greys telling him that radar interferes with their navigation system.

In August 1968, Michael, a 16-year-old working in Vermont California as a ski instructor, and Janet, a 19-year-old student, were both abducted. During the abduction Michael was telepathically told that the uonauts cared for him, that there would be much of the encounter he wouldn't understand, and that Janet was OK but wouldn't remember anything.

In 1995 an American, Jim Sparkes, living in North Carolina was abducted to a disused carnival park by 12 Reptilians. They told him "There are some things you need to understand. Yes it is true that we have been in contact with your government leaders and heads of power, it is also true that agreements have been made and kept secret from your people. It is also true that in the past some of your people have lost their lives or have been badly hurt to protect this secret. Our hands had no part in this."

"We contacted your leaders because your planet is in grave trouble. Your leaders said that the vast majority of your population wasn't ready for anything like us yet. So we made time agreements with your leaders as to when your people would be made aware of our presence. This part of the agreement has *not* at all been kept."

"It was also agreed that in the meantime steps would be taken to correct the environmental condition of your planet with our advice and technology. We say advice because we respect the fact that this is your planet, not ours. Your government also broke this agreement."

In June 1976 Pat Mcguire a Wyoming farmer was abducted. Under hypnosis induced by Dr Leo Sprinkle, University of Wyoming, he recalled being abducted into a spacecraft and told to drill a well in the high country near his ranch. Contrary to advice from geologists and well-drillers he did so and at 350 ft water gushed up at the rate of 8,000 gallons per minute.

In 1978 John and Gloria Mann of Gloucestershire were abducted into a UFO and shown a film of a planet devastated by nuclear explosions. On asking how the craft was powered one of the ETs replied that it was by a process that they were prepared to exchange for a chance to live peacefully on earth.

In November 1980 concert pianist, Luli Oswald, aged 55 was driving with a friend along a coast road near Rio De Janeiro, Brazil. Under hypnosis she recalled being abducted into a spacecraft crewed by rat-like ETs. One said they came from Antarctica and told her that there was a tunnel under the South Pole. She experienced two hours missing time.

A 16-year-old American high school abducted student was examined under a bright light and told that he would forget the incident. However it was recalled under hypnosis induced by Dr Leo Sprinkle.

In June 1977 Ted Pratt was riding as a passenger in a car when it was teleported. Two men then exited from a hovering UFO 70 ft away and walked towards the car. They told him that they were afraid that humans would destroy themselves and fatally pollute their atmosphere.

After several encounters with an ET in 1981 an American, Carlos Dias, recalled under hypnosis being told that the ET's were of a race which had strong connections with the Mayan and Aztec civilisations. He was made deeply aware of the interconnectedness of life and the need to protect the environment. In a disembodied state he travelled to different regions of the earth's ecosystem – forest, desert, jungle, seashores and the Arctic regions. Dias said that although the ETs he encountered were reluctant to disclose their origins they said that they had been visiting earth for thousands of years and were particularly interested in our rate of evolution which, for reasons they attempting to determine, was occurring much faster than theirs.

In September 1994 in Ruwa Zimbabwe some one hundred children witnessed a UFO land and three ETs emerged. Children who looked into their large catlike eyes heard a voice inside their heads and instantly knew that the ETs were arriving because humans were destroying the planet and that they should participate in efforts to stop it. The principal later said that the children became active in ecological projects.

In 1987 ex-police officer, Phillip Spencer, was walking on Ilkley Moor, Yorkshire, when he was abducted. During the abduction he was told not to be afraid and was shown a film depicting earth with billions starving.

On the morning of the 20<sup>th</sup> April 1933 an Israeli woman's attention was drawn to a strange glow enveloping her house. She saw a UFO outside on the ground and a 6'7" ET wearing a helmet standing nearby. She asked, "Why don't you take your hat off so that I can see your face?" The telepathic reply was "That's the way it is."

Soon after a resident of a nearby village whilst working in her kitchen saw her dog go flying into the room and strike the wall. Outside she saw a 6'7" ET examining her pickup truck. Angrily she asked, "What did you do to my dog?" The telepathic reply was "Go away, I'm busy. I could crush you like an ant if I wanted to."

In January 1967 Betty Andreasson's house was entered by four ETs about 4 ft tall. During her abduction the tallest told her that they had come to help the human race, which was in danger of destroying itself. He said that as time goes by humankind will become sterile and unable to reproduce. Later, in another location, a wormlike ET warned her that humankind was pursuing a perilous course, that love was the answer and that humans needed to seek wisdom through the spirit.

During another abduction in 1974 Betty Andreasson was told that the aliens loved the human race and had come to help, but unless humans could learn acceptance they could not be saved. "All things have been planned" she was told and love is the greatest of all. The ET said that they had technology mankind could use; but it is through the spirit but man will not search out that portion. He warned that the human race would not believe her message until much time had passed.

A woman named Ann Andrews who was abducted with her son recalled under hypnosis images on a large screen of the Earth blowing up.

In May 1998 Amaury Rivera was abducted with his car in Porto Rico. A tall ET told him not to be afraid saying he was a man like him and that it was necessary to share some information with him. He was then shown a series of 3D holographic projections. The first was of a comet striking the Caribbean with such force it devastated the planet, the second was of a single world government on an artificial island in a black polluted sea.

During his abductions beginning in 1985 Whitley Streiber was screened pictures of a planet blowing up. A goblin ET said "that's your home". Streiber was also asked to give a lecture on the evils of the British Empire.

In 1957 an English woman Cynthia Appleton was visited several times by a male ET with long blonde hair. He warned her of the dangers of atomic energy and told her that she was pregnant with a baby boy. He said that although the baby was a product of their race he had been fathered by her husband. The ET predicted the infant's birth weight and told her the name she should give him. Mrs Appleton's pregnancy was confirmed by her GP.

In November 1980 a 30-year-old hybrid woman was abducted by Greys. Under hypnosis she recalled being told that human civilisation was entering its "end times", and that she was one of the emissaries on earth who would help guide humankind into the new millennium.

In October 1974 an entire family was abducted from their car in Essex, England. The craft was crewed by squat Greys and tall humanoids who appeared to be in control. Films screened to the family depicted the ETs genetically barren home world. The family was told that the ETs had come to planet earth to ensure that we didn't go the same way. "You are our children" one said, "You are part of an experiment."

In 1980 ETs removed ova from a Finish abductee's ovaries using a long tube. She was told that the ETs race was genetically sterile, but that they had found in humanity and unexpectedly rich gene pool that was helping to keep their species alive.

In 1950 an engineer, Daniel Fry, saw a large UFO land in White Sands, New Mexico. He approached the craft and when a few yards away telepathically heard "better not touch the hull pal, it's still hot". The warning came not from the UFO but from a massive master craft that was circling the earth.

After an encounter in Mooraduc Road near Melbourne, Victoria, in June 1972 Maureen Puddy was driving down the same road the following month when the car's engine died and it was dragged onto the grass verge. A UFO appeared over the car and a telepathic voice said "All your tests will be negative" (Maureen didn't know what this meant). "Do not panic, tell the media we mean no harm. You now have control." With that the car's engine restarted.

Virinda Hosciks lived in South London and her abductions began in 1989 when she was 14. She believed herself to be psychic. During one of the abductions the ETs informed her that they were from Zeta Reticuli and that they had abducted many humans for testing. They said that they usually chose humans with psychic powers. They said that they considered humans primitive and that although they had evolved far beyond humankind they had lost their emotions due to cloning and said that they would be happy to exchange some of their advanced technology to get them back.

In a later encounter Virinda was told that some 16 ET races were visiting earth and that some of them were experimenting on humans, but were afraid of humans doing the same to them. They told her that they were attempting to bring humans up to their level of learning.

In July 1981 three young English women were returning home after their weekly night out when they and their car were abducted by a large UFO. One asked the ETs who they were. The curt reply was that she was not to know and wouldn't understand.

In October 1971 three members of a Canadian Rock Band were abducted into a UFO. After physical examinations one asked the ETs where they were from. The reply was “a long way away. If we told you would not understand”.

In July 1968 a 25-year-old man was approached by tall ETs with a robot in the Dolomites. Telepathically they told him that they were from a far galaxy and that everything is God. They warned that the earth’s poles about to shift, that its crust would crack and that mankind is about to encounter a lot of trouble.

In February 1978 a Spanish vet, aged 30 was driving one evening with his dog when both were abducted. The vet was examined and samples of his body fluids were taken viz blood, semen and gastric fluids. The ETs told him that our sun hurt their eyes so they usually only appeared at night. They said that their world was a dark, polluted place and that humanities is a beautiful jewel and a rare oasis of fertility in an otherwise sterile universe. This they said, was what had brought them to earth. They wanted to study the humans’ world before we destroyed it, just as they had destroyed their own. The young vet was warned to be careful because not all the aliens visiting earth were so benign. There was, they said, a bunch of ugly little brutes who were intent on programming human beings biologically. The communication was recalled under hypnosis.

In April 1980 a Finish woman was abducted whilst driving her car. After a physical examination by small worried looking ETs they told her that war was bad and that she should join a peace movement. They said that they were concerned about the fate of humankind and that they were unable to have their own children.

In May 1978 a Russian man was walking alone along a lakeshore when he was grabbed by two ETs who escorted him into their spacecraft. Being a good Communist and believing that Capitalism was responsible for world poverty the Russian asked the ETs to support the Soviet Union in its fight against capitalism. The ETs replied that whilst helping the poor was a noble aim, the suggestion was impracticable. If we help the poor they argued we would have to help the not so poor; then we would end up helping everyone. The Russian then asked why, if their civilisation was so advanced, they didn’t drink Vodka. They replied that if they drank vodka their civilisation probably wouldn’t be so advanced.

In February 1974 a Brazilian industrialist suddenly found himself in a square room with no doors or windows. A voice which came from a box with flickering lights urged him to keep calm as they were his friends. Then a replica of himself stepped out from an egg-shaped machine on the wall. It patted him on the back and then, in a voice identical to his own, said “keep calm and wish me a good journey because I do not intend to harm anyone”. IT then stepped back into the wall. Via the box in the corner the industrialist asked what they wanted of him, “We need to conclude some tests”, they replied. They assured him that he would not be harmed, that they were friendly and only wished to help. However they added “the less you say about this the better”. They said they wouldn’t tell him who they were, but said that the world they came from was very different from Earth. The industrialist asked why he should assist them if they were invading Earth, whereupon they protested that they were not invaders, but that they had come for the benefit of the human race. Being a Catholic the Brazilian asked whether they knew about God. “Everyone did” they replied. He then asked what was the thing that had replaced him, viz the double which he had also remotely viewed indifferently in his home treating his sister “He is an image that can be touched” they replied. “Inside him there is one of ourselves and a recording of your mind.”

In April 1977 Amando Valdes a Chilean Army Corporal disappeared whilst walking towards an airborne UFO. Fifteen minutes later he reappeared from the opposite direction walking as if in a trance and mumbling “You do not know who we are or where we come from. But I tell you we shall return.”

In 1951 a Brazilian engineer living near Cape Town, South Africa stopped his car whilst taking it for a test drive. An ET with no hair, a soft face and a domed head appeared and invited him aboard their spacecraft. Being an engineer the man asked how the spacecraft worked. The ET explained “We nullify gravity by means of a fluid magnet.” The engineer then asked where he came from but rather, unhelpfully, the ET simply pointed to the sky and replied “Up there”.

Also in South Africa five years later in 1956 a 56-year-old male Jean Lefitte was abducted by ETs with large heads and no hair. They told him that they were from the Pleiades star cluster and that another species of aliens visiting earth came from Alpha Centauri. They said they had come to lend humankind a helping hand and in a later abduction in 1988 told him that they had mopped up excess radiation which was spilled during the Chernobyl Nuclear Power Station disaster.

In 1974 a Rhodesian Peter and his wife were returning to Durban in South Africa when he was abducted. Using telepathy the ETs showed him around a laboratory in their spacecraft and said that they experimented on the humans they abducted. They said that they could appear in any form the witness found acceptable and on this occasion appeared as small hairless humans with no reproductive organs. One said that there were thousands of them living among humankind but they never interfered in human affairs. Instead they tried to influence individuals. He said that they had used this influence to change the world in the past and would do so again, perhaps to end war or to introduce their way of doing things. He said they had travelled not across space to get to earth, but across time and that they had come back in time to get to Earth. He said that they originated from the outer galaxies and twelve planets of the Milky Way.

In June 1978 an English family of four and the husband's sister were abducted. The husband's sister was told that although the ETs' planet, which was destroyed, was several thousand light years away the journey to earth had taken them only two Earth years. She was told that the spacecraft was powered by static electricity.

In May 1968 a 19-year-old nurse's assistant was abducted. During the abduction she was persuaded to lie on a table and one of the ETs inserted a long needle into her abdomen. She was told that she had been chosen for an experiment and that they were taking samples of her ova to find out whether she could give them a baby.

In August 1965 a Venezuelan gynaecologist and two businessmen were visiting a stud farm when, after a blinding flash, a glowing sphere bathed in yellow light drifted to the ground. Two 7 ft ETs floated down a ramp and walked towards the three frightened men. "Don't be afraid" they said "Calm yourselves". Telepathically they told them that they were from the Orion constellation and that they had come to earth to study the psyches of humans and to explore the possibility of interbreeding with humans to create a new hybrid species. They told the men that the small black-eyed Greys visiting earth were from the Outer Dipper and that their purpose was unclear. However they assured the three men that their own mission was peaceful. They said that although they could have brought with them a wave-compressor powerful enough to disintegrate our moon they had brought only a few small ones which were, nonetheless, powerful enough to halt an atomic explosion.

In November 1980 Mario Luisi was walking near his home village of Burnside in the English Lake District when he encountered two ETs standing near their hovering spaceship. The female spoke to him saying that she and her companions meant no harm and that they had come to earth in peace. Luisi was told that he mustn't reveal the symbols on the ship nor those on their lapel badges.

In January 1980 an English housepainter woke at 5.00 a.m. and saw a 2.1 metre ET at the foot of his bed. The ET told the witness that his people regularly shipped humans off to other worlds to colonise them. When a planet became overcrowded, he continued, they started a war to reduce the population. He said that our planet was likely to split in half and that they were desperately trying to plug cracks by injecting a type of liquid cement from remotely controlled space vehicles.

During an abduction in March 1971 an American, Brian Scott, was told by the leader that their race came from another world beyond all time. “When I return” he continued “All will know the truth, life will be lived through all time and knowledge will all be yours. I am now, I was and always will be.”

In 1979 Virginia Horton, a corporate lawyer, recalled two abductions, the first when she was six and the second when she was sixteen. During the abductions she was shown a star map and told that the six ETs on the craft were from another galaxy. She was lectured on the importance of ecology, biodiversity and the preservation of endangered species. She was told that the ETs wanted a little piece of her to take back with them.

Just before Alec Newald, a New Zealander, boarded the transporter for his return journey to Earth in 1989 his ET guide, Zeena said, “Forget the abomination you have seen here. When you get home, with all caution and commonsense, let the sun see your eyes. In spite of what others may say, do not hide yourself away from a friend.”

In 2002 the following message was delivered in binary code in Spanish to contactees in Puerto Rico.

“Beware of bearers of false promises.  
Much pain but still time.  
Believe, there is much good out there.  
We oppose deceit.  
Conduit is closing.”

On the 11<sup>th</sup> August 2003 a Polish man, Lech Chacinski, was driving his car at about 5.00 a.m. when he saw three figures standing on the shoulder of the road in triangle formation. They told him that the people of this earth should take care of their planet or else the waters and air will become polluted beyond the point of no return. We will then become an extinct race. Lech asked the ETs where they were from and they replied “From the eighth galaxy”.
